Dear Mary Ann.

Well, I suppose it's about
time I answered your
letters - but I simply
haven't had time &
that's no lie.

I hope you don't
mind my stationary
but I thought it
was a novel idea &
decided to try it.

I have the week end
off this week end
& decided since I
was so damn sick
& tired of staying here
day in day out. I'd
call up those people
I met @ Dick last
summer & they
invited me to stay
over night - They're
really swell & I hope
I have a good time.

I really miss your letters - they were so full of the things I like to do. it sorta brought back my free days - I hope you answer sooner than I did.

I haven't heard from E. ever since he left do you suppose they won't let him write as yet?

Sunday nite - Inez & I went down to the water front & the Admiral was docked there. didn't we have fun that nite?

Forest Park is open again now & it was raining too hard we w'd have gone out there - instead we went to the movies to see "Uninvited" & Ray Milland & "The Hour Before Dawn" - those were the first movies I'd seen in ages. My

case study keeps me
pretty busy & we have to
start on our surgical one
too now - so I suppose
I'll be pretty well occupied
for a long time.

Inellmann has started
writing to Dick now
so I may be rid of him -
but I doubt it. He's so
darn persistent.

Hop still writes - but
not so often - I'd rather
have it that way -

Of course that drip
Kenny Barker still writes,
but he may have to go
in the Navy & if he does
he'll get a commission.

Then he can come around

I haven't heard from
Fran lately, but as far
as I know, she's still
planning on coming
down here for a week
end when you do.

I sure hope nothing
happens to upset the
apple cart - I think
the three of us could

Have a swell time &
I would like for you
to see that interne -
He sends me, -

How's every body? I
hope daddy gets better
the last he wrote he said
he was still having a
pain around his
heart. Take care of
him - you only have
one & you'll never
get another like
him.

How's the garden
coming?

I don't know whether
or not you remember
these kids, but Paula
Schultz is engaged to
a Navy Officer & when he
gets his wings he's
going to quit & get
married, then I'm
going to live to
Parker & Poole - That's

really be swell since
I haven't tried to
members of my class
since Stricker left.

She's now in her
second semester @
J. U. and likes it
fine. She's real
anxious to see us
next summer & I'm
sorta looking forward
to her - aren't you? You
never miss a good
thing until you don't
have it any more.

Luther Muggen is a
1st year man at the
Sem. I accidentally
ran across his picture
in the Annual.

Dickens' man is a
third year student &
he got her a year book
you'd be surprised at
the kids you know
it it - but I've met
quite a few since I've
come down here.

When you come you'll
have to look him up
& see if he remembers
you.

" I'm on evening duty
now & the visiting
hour bell just rang
The visitors are all
filing out - so
when they all go. Sis
have to start putting
my people to bed. &
give them their medicine
& junk so they'll sleep
to, 'hurn, 'hurn, 'hurn,

My division is adjacent
to the internecine quarters
& my hero is on call
tonight - I sure hope I
have some difficulty
& have to call him.
Gad - but you should
see him. He has real
black wavy hair - 6'3"
wears glasses - light
complexioned & a New-York
accent. In that internes
uniform he makes
my heart go pitty pat -
I hope this doesn't
get boring - it seems

to be getting quite
lengthy - so I'll put
my people to bed now
& if I have time when
I finish, I'll add a
few lines if not - I'll
send what I have.

I finally got finished.
One lady brought some
ice cream & gave
me a whole pint -
and they wonder
why we get fat???

I'm sorta tired - that's
the only thing - I've
had evening duty 5
nights out of seven now
& am beginning to
think there's a nigger
in the wood pile
somewhere. I just
can't understand why
someone else doesn't
get evening duty once
in a while. You

work till 11⁰⁰ every
night & still have
to get up at 6⁰⁰ in the
morning. There isn't
no justice.

I can't think of
any more dirt - so
until I hear from
you it's -
cherio -
Martha

P.S. don't get too
disgusted @ this
mess - I promise
never to do it again.
