Dearest Martha,

I received your letter yesterday - so I hope a little time when to answer it. As I am going to the second show I will not finish it but I will write to you.

I guess you have been out swimming this day. Most every body does go swimming on the 4th of July. As I know St. Louis do not let you use fire works now. But you remember the day we did. But now we just use a little beginner ones. We had a pretty nice day & day. But I worked to day.

I went to the lake today. I had to have tooth fixed. I had to fill a very small hole. I did not even notice it. The dentist said the rest was all

is good shape. This is with the
Expectation of the two gold ones I got
playing football. But I would
do anything to play football
again.

I am glad ~~to~~ to hear that you
are well. I mean it's a good
reason why you have not
written. But I ~~am~~ understand
I had to work ~~all~~ like hell
to keep up with it in Regt.
But I could not at Washington
V. as I guess you know.

I am listen to the radio &
writing at the same time that
is why I am making all
the mistakes. They are telling
us from the 4th of July is at home,
the Calif. Teacher, & other.

What do you think of the
St. Louis Bears being up at
the top. At least that's what
the standing look now.

I will finish this tomorrow.

July 5.

711

I went to the show last night to see "The Man from Down Under". A lot of boys said that they saw it in the States. I guess it is an old picture. But I thought it was good for I did not see it before.

When we came out of the show at 11 o'clock they were shooting rockets and the boys used their guns. It seems so funny to me. The place where we are now. We fought for England for our freedom & now we are back on the island that we fought for their freedom. One year you fight for the next year you fight for them.

We are having two nice days in a row. I guess we should make a note of that. Because it is few & far between good days.

Now back to your letter.

I sure hope I can keep that engagement or date for your graduation night. That is a long way off & I have a lot to do.

And you might find a good looking doctor to go out with.

We are to get a furlough over here but that was stop just about a month after I got over here. But if we get one we can not leave the country.

Some of the boys have been over here 25 months with ~~out~~ out one. They thought they would get to go home soon but I guess they will have to wait until they get finish with this war.

I just as soon stay over here & get it over then have to come home & leave again. Because when I get back I do not want any army to tell me where to go.

V

You said that you can go
on for ever telling how much
you miss me. Well I could not
go on for ever but I could
tell you a lot. I think of you
a lot and just about every day.

The V.B. has a radio station
over here for us. and this is
the 1 year. So they have all the
big stars on it. You see we
get thru all our love program.

Well I guess that is just
about for now.

Watch out for the Bachelor
is it M.B. with you.

So until I see you
again. Lots of love & kisses.

Oops.

Keep smiling
