England

Dearest Mother,

I did not hear from you for a couple of weeks. Well, at least it seemed like that. And now you are 2 letters a head of me. You see I went to the town but saw no old pictures like I saw White & the Seven Ravens' & a very old picture of mice & men!

I just can not think of much to say so I will answer your letter of June 28.

My brother is working at the office making more & in one week that will make six months. But as he will go in the service very soon. I think he will quit soon & go out and have a good time. If he finds a girl like you he sure will have a good time. Exactly, if he got a beach out once in a while. What do you have to say about that?

You are really seeing some new
shows the old ones we get over
here.

The weather here is good to-
day but to morrow I guess it will
be raining again.

We had a ^{drummer} ~~drummer~~
it was so old you could see
the "bush marks" & had 3 or 4 half
marks "making the bird about
12 years old. As you see each mark
mark stands for 3 years service.
After chasing it about the
table I finally got to take a
bit and a little fight
I give it.

~~Just~~ for the Canada
is near our house. But
you still have about 2 miles
to go out the same road & it
is you were going when
I got to the theatre. I saw
I know a lot of people
worked in that place.

I will change my words a
little and so not to use
the words if I get back.

But to use the words "When ^{III}
I get back."

I got through my letter were
getting to full of fall that one
stuff. But as you said in the
letter you like it. How about
setting up some good place
& tell me about it. I said that
I would now write or read
any of that stuff we gave
above changed a little. Maybe
I rather should wait for the true
magazines. But in second though
I could tell you about it better
then I can write it.

I was very sorry to hear that
your dad is not feeling very
good these days. I hope that
the vacation will help him
out.

I read in a paper over here
that the U.S. ~~over~~ nurses are
getting married at the rate
of 4 or 5 a month. So you
know of a good way to get

a husband too. At we got
in the south Pacific. A nanager
a nurse 5 gal of fresh milk.
He flew it there by plane. The
next week they got married.
Now I know how to get a woman.
The people over here like candy
& gum. I will get a lot of lbs
of candy & a wife.

A boy was driving a jeep and
as he turned the corner a mas-
culine voice boomed out "What
time is it?", "10:30," cried the S.I.
"You are wrong," shouted a
feminine voice, "9 to 10:35." "Damn
I must be slow," said the S.I.
Came the feminine voice again, "If
you are slow - you're the first
yorker."

I will enclose a half. I got in
town I hope you like it. And if the
Sweetheart is going & fast. Please
forgive me. But it's all I could
get. Your boy friend for now.
With Love
John
