Lutheran Hospital School of Nursing

St. Louis (18)

Mo.

July 15, 1943.

Dear Martha:

I do not know
were to start. All I hope is
that I get this letter done to day
if I do it will be miracle.

Well, I will tell you the news
around here. We win our soft-
ball game yesterday by the score
of 2-0. The other team did not
show-up, they were afraid of us. Now
if you believe that one there is
another. Boy, did we have a
hard time yesterday I sleep 5 hours
and went swimming but I was
to be working hard. Tuesday
we made three trips out to the air-
port. We had lot of fun with the
guys. That is about all I know.

Oh! I had breakfast in bed
to day. How do you like that
for being in the army not bad.
Oh. Well you will have that in
bed when you get home. That

is if you every get in bed. you
will help the milk-man around.

I know if I go off I should would.
I hope you have a very good time
when you go home, I ~~mean~~ mean it.

Forgot about taking so long
in answering my letter I know
~~how~~ how that is. I have so that
looks me two months to answer.

I am not good at this letter writing
that may be one of my reasons.

By the way, be for I go further
if Dick does not mind I would like
a date with you some day. How
about it. If so you ~~will~~ will have
to name the time because I do not
know what day you have off.

You would like to know about
me as a base ball player. Well, I
is a long story. Well my batting ave. is
.999 a 1000 looks to good on
paper and you may not believe I have
a 1000 so I will leave it a .999
I hit homer triples and some -

tenis just for good measure I get a single but never a out. Now as a fielder I am the best. Once I close my eye and the ball went in the right pocket. Sorry that is the wrong game. I mean my glove.

Now you can put that pile in the corner and I better stop before it gets too high. But if you like to hear some, more it will be cont in next issue.

I was stop because I had a little work to do the Sgt. through. I help with the mail. I might have to stop again because I am in my room and I should be working. But I love to write to you so here I am.

Say what is the matter between you and your roommate. you should be with me I have 14 roommates. There is never a quiet second, you can see yourself how 15 boys get old along. Why just this morning

the boy that sleep above me was laying in bed. and two other boys jumping in bed with him well the bed gave way. Boy was it lucky the as was write this letter to you because poor me if I would of been in bed. and this was the first morning I got out of bed so early.

Why even yesterday one of the boys in the room had some fun on me.

I was sitting in bed reading your letter (it looks like everytime I am writing you or reading your letters they have some fun.) and we have a pump which is operated by hand. pump for fire, it just has water in it.

I was going to take a bath but not that fast. Boy was there some pressure behind the water. It was fun to lay in that swimming pool all night.

Now I will talk about Dick of which I know nothing but that what makes it fun. If he is getting to

serious give him a hint. I think he will understand. and now "I will take it from them" — if a little hint will not help ask Pearl she just about drop a brick house on me. But it is over now she used the Lutheran Hospital. Yes I was getting serious with her, but she was like you, I guess, That was like hitting a football line. I was even losing ground. Ask her about it I would like to know what she think about it first. Put all kidding aside there are two kinds of boys in the army ① the wolf ② and the boys who has some girl to look home for she likes him a little. Now the wolf if you do not know him by now well — I can show him to you. I had to fill the pen. Number ② That is not a lie all the boys like to have some body at home who he can think of in this dark hour. That is enough of that before I start

tell you all about me. Then I might never get that date.

Forget about the interruption for a letter from home I would stop talking to my best friend. Then put that 5.00 on top of it well — say by the way what are you doing to - night. I bet that splurge did not help the date we got to - night.

I feel very happy to-day that is why all the letter and so full of the good old S — . But there was some parts in there I mean.

I stop again but it was lunch hour. We had, steaks, peas, ice tea, but no hard tack boy it is to die about the ice cream + soda you are getting getting but I will catch up so day. I love the part in your letter about "confered to your barracks + eating hard tacks". I die laughing because I went out all this week and with out a pass but if they catch me.

His poor boy will be in it —

I went to the show and saw
"Young + Willing" that is a good
picture I think.

Say if I send you a picture
I think I should get one in return.

What say? I will have to get
a picture of myself I do not have one
with me. But I better get your picture.

Well I think that is enough
for one letter

Say if I sign this letter "love"
is that getting serious?

Your Pal
Hop

P.S. There is a note for Pearl.
