What say Martha.

I was very happy to get you letter. I did not think you would find time to answer so soon. Thanks a lot.

Sorry I run out of the other paper. You see this is the time I should be doing my exersise. It looks like I write you only when I should be doing something else. The reason I have for not exersizing is that I sprained my ankle in a hot game get this of valley ball. I play football all year and nothing happen, then I play a girls games and I am out for a week. They got a nice looking nurse at the hospital so it is not to bad. What do you say about that?

I tryed to listen to the teacher to-day but I feel a sleep. So I just as soon write letters. What I get out of that history class you can put on a pin head. There is just some little thing come up monday a history test. More fun.

I will have to go on the "admiral" some day from what you said about it and the boys in the room went on it Sat. Boy were they ~~felt~~ feeling good. In fact one does not remember what happen to him from 11:00 on. We had one hell (sorry about the word) of a time trying to get him to bed.

I hope you do not come home like that.

But the story they have about the girls well they all got dates the week.

Boy I bet it feels good not to study in the time you have off. If you dids study at all. Please do not get mad ~~too~~ for what I said.

Don't you know how to take 3 in baths now. I was good to asked you what I should do with my ankle, but I did not need it cut off.

I died laughing at the part in your letter about the hippo you gave to the lady.

If you told ~~her~~ her that it would not be any worse than a mosquito bite. She must think that Indiana ~~she~~ has some big mosquito.

I am sitting in a library and is it quiet. There a silence cord all over the place. That is not for me.

Well time is up so I will close but not for long. I have a history class to day at 2:30 PM I will see you then.

Well, here I am again in my good old history. This class is good for letter writing only! The all important day of the month is here tomorrow. Pay Day!!!

Say I like the tag you put on the back. Some stuff! you had the boys interested.

We have a soft ball game with section 3 to night. But with my ankle they put me at water boy + score keeper. I do have a cast, I needed one. You see we are in Flight B Section I. They call us B-I or "Vita-man". What do you think about it?

Well I have some other letters to write so I will close.

Tell Pearl to write

Thanks for the letter and keep writing

Your friend

Ollie
