Dear Martha

240 20 1943 England

and how is St. Louis and the
most regret how are you?
I can not say to much about getting
over here. But the most important thing is
that I got here.

This place has got me doing better
that you do not be in the U.S. I visit the English
money what a difference in the system.
They got penny, the pence; and the shillings;
and the pounds. The second thing are the
savings for things. Like when you have a
run in your stocking your call it a run in
your ladder. But most of the girls wear
black cotton stocking. Which do not look
good. You should be thankful that you
can wear silk stocking. You can see
the freight cars. It would take about 10 or 12 of
the cars to make one of ours. There can are
small too. Every body here rides a bicycle you
can see people 60 years riding them.

My say mail is a low here. So it will take
a time to answer you letter. So here is the right
address of mine. 83rd A. F.T. 2 17th A.C.D. (AVN)
