Indianapolis (3) Indiana.

June 8, 1945
England

My Dearest Martha,

I have not written for quite a while. That is because I have been kept pretty busy. That may seem funny now but the reason is over but I can tell you why. It is late. Right now I can not. I have got 2 of your letters & answer them & tonight while I have the time. I may not have the time or place. That is why I have to in this letter answer both of your letters. I do not do that all the time.

We are having very nice weather over here now. It's good, but we do have a couple small showers every day. But then it would not be England without the showers.

Dad wrote his the last couple of his letters how nice you looked the night you graduate. He said you looked nice so nice. You should get married. You better watch out cheating my dad from mother like that.

But mother also wrote how good you looked. So I guess I missed a lot by not seeing you graduate tonite. Mother said you look sweeter every time she sees you. And she never said a word about my girls before. Both dad & mother liked you mother & sister & brother. So I guess everything went off good.

I wish you would write me anyone would still I write you again. But I hope you still think about me. Just put the days in your diary. And then if I ever do get to see how you are doing the days I did not hear from you I will know were to look. Well I may be some time before I can look at it.

The letters of yours can from here and I am glad to hear that you are there. And I hope you have a good time.

Those are both nice nice letters. and I will have to answer them one when I have the time. You really can write a good letter. You can not pick down on paper what is in

my heart may be one of those days
I will be able I.

This letter is very short but I just
do not have the time. I pray that you
will understand.

Well, my Dearest this may be the last
letter you get from me for a while
but I will write you as soon as I can.
I love you always as until our
bodies are really and not just one
by the travels across the water &
will be that of you day & night. Which
I would be getting near you and
not far away.

May God watch over you for
ever. Love always.

H.J.
