V-J Day

Dear Martha,

Well the great day is here. It's just a couple hours old. As it has just come over the air. And I guess most of the world is very happy. As a lot of the boys here are thinking about home. And I guess the people at home are thinking about us. I know how it is with you as your brother is over there. Well Roy was on his way over there. Well the radio is off here. Well the radio is off for it. And I guess that you hear all about it.

Well Texas is really a big place in the day time but the nights are really cool and nice to sleep.

I am getting a very nice
suntan here. As the sun
is really hot. And since I
have been swimming 4 times in
2 days.

You see all we do is play
ball & swim and we have
to do that. It is hard. I
go to sleep and go to the show
the rest of the time. We are
just laying around waiting
to leave. As the whole group
is to be break up and shipped
out. That was before F.D. Day
mp I do not know.

I went to see 2 shows while
I was here. I saw 'Over 21'
not bad about 'O.C.S.' and
'The Woman in Green' did you
see any of them.

This place we live in
is really nice and very

2

big. They have 3000 men in it and 6 bowling alleys also a big mess hall. It is the biggest one in camp.

I did not tell you that the running post is very close. It is like walking across the street.

I can not tell you what town we have not been there. But I will when I get there.

I better close as the lights are going out and not like in England when I could write later.

Love

P.S. If you get the other address
