MISS MARTHA DARROUGH
LUTHERAN HOSPITAL
SCHOOL OF NURSING
ST. LOUIS 18 Mo.

April 2, 1944
England

Dearest Martha,

Well, today is Palm Sunday. And it is the time for you & all the women to wear some new kind of dress or hat or shoes. All the women do it on Palm Sunday or Easter Sunday. You remember that song "The Easter Parade".

We had a nice day for wearing rain coats which we did. I would not say that it was raining but just a heavy wet drizzle out side.

The boys in the barracks are having a big talk over the clothing they should wear. I think I should wear my new tee. But I think that the Genet will be olive drab. What do you say?

We had to move our watches up one hour. I guess they started some day light saving time.

So right now we are about 7
hours a head of your time. Well,
I just thought that you would like
to hear about it.

Now to your letter of March 12.
It is too bad about your allowance
but as I told you before send the
letters by 3 cents in stead of air
mail.

You said you received my clipping
of Army Nurses. I have just sent you
a clipping of Army Nurses. I guess it
is the last same one I sent before.
So just give it away. I found out I
you sent you one.

I think that you are right
in your idea of not joining up.
I did not want to tell you but
what was in thoughts but I
like the one that you have.

It is too bad that you do not
have so many dates. But I guess
you are sure one. I just can

not find the right girl. They have 3 girls here but I have not had a date in about 3 months. That is a long time & the truth.

I know you were in the hospital but I did not know ~~how~~ why you were there. I remember that night I came to see you. At first I did not know where I should come.

So you find a worm in your lettuce. It is not bad to find a whole worm in your lettuce. But it is bad if you find just half of it. Now I am laughing.

I really go for your scent in your letters. A boy got a Easter Card and we were making the boys smell them.

Did you hear the one about the Fair State girls college. The fireman took 2 hours to

put the fire out & 4 hours to
put the fireman out.

I am later to what the boys are
talk about it is St. Louis. Boy I
never know it was like that.
Just about all the boys I
know have been at J.B. once
and. They all say that it was a
good town for the soldier.

I do not remember all you
do but when you tell me
I do remember it. Like the
time I had the cut on my
knee. I was trying to tell you how
to put the tape on my leg. I
remember we were all on the
floor trying to put it on.

Will that is all.

As always I miss you a lot
With Love
Ollie
