Dearest Martha,

Will you startings to answer
you letter. I do not know how long
it will take me. As the boys may come
in and want me to play ball or cards.
But here goes nothing. And I am not
piddling.

I was talking about playing ball.
Well after I wrote you I. mail last
night. I went out & played ball. I
got 8 hits at 4 times at bat. Which is
not bad. I hit them all to right
center field just between the Right &
center fields. I got 2 bases one each
but as the ball went in to the street
& that is all they would give me. I
think I could of made a couple homers
on them but they had the rule up
before they started. I think I use to
write you some thing about our team
at Washington D. C. If you keep any old
letters you might want read them to
see if I am right. Because you asked
me how my pitch was coming. I
did not know what that mean by
that and then you told me. Now do you

think it is doing now? You are right &
very poor over here! I could show you
if I had you in the right place. But do
you know where the right place is?

You can see we are having some
good weather if we can play ball!

Well dear, I guess better start on your letter
as I have very little to say and some many
letters to answer.

I can not get over the letters for
I know you do not have that much time
to write. But let me tell you it really helps
you out to get the letters and from the right
people. As you once said.

You people at home much be really
having a long winter with snow
in the last parts of March. Well over
here you can rent a boat & take you
just friend boating out on the river. You
know that it has to be nice to do
that. That is one thing I have not done.
I will have to try it out some time but
I have not found the right place over
here. I think I have at home.

I wrote you about that kind date I
had over here. Well a couple of days ago

the boys wanted me to go out again with
the same girl I told him a thing or two.
I wish you could of heard the words I used.
On second thought you are a laughing.

I just got finish with the part in
your letter were you said that you
brother just had all his hair cut.
I keep you that is. And they with the things,
like that in the service. But it's better
for him if he gets a wound in his head.
But I guess you know all about this
side that. I should not be telling you.
But you telling me.

Did you ever have a bath with
a hard soap. Why did that to
a boy and went they got finish. He was
a nice color of pink. But I mean pink.
I let he lost about 4 or 5 days of skin.

I will close now until to morrow
when I will answer your other 2
letters.

With love to Dennis
Hogg.
