England

Dear Martha,
I got a letter from you
today. Now I am 2 letters behind
you. So you see how bad I am.
So excuse me this and do not
write so much as it is hard to keep
up with you.

I had in one of your letters that
there are going to write to you folks
about school. So I thought that
it would help a lot if you only
write to me once a week and
then you can spend more time on
your study. I know how tired so
books can get.

This I will be sure to write in so I will
write a letter on a regular basis.
Love, Hope.
