Dearest Martha,

I am a little  
behind in answering your letter  
of June 24<sup>th</sup>. I do not have  
any good explanation, so I will  
just skip the why & excuse  
for.

I just finish a shower &  
shave. I was shaving &  
put down the razor. And  
I put my little finger on top  
the edge. Which do not make  
matters any better. So it started  
to bleed. I could not stop it we  
put a piece of string around  
it & it is finally stop. Well to  
make a long story short. We  
need a good nurse here.

But I got that cut on the  
inner side of the finger the  
side that I lay my hand on  
to write. And I got blood  
all over & every thing so. I  
not be surprised to see it

on this letter. This also with help  
my poor handwriting to.  
I forgot to thank you very  
much for that big kiss Dept  
is lip stuck on that last letter.  
I sure will love to get that in  
person. Sorry I can not return it  
to you that way. But thanks any  
way it sure is good to get it.  
So you are enjoying a little  
of H. Louis' nice life. I am afraid  
when I get home you will have  
to show me around the place in  
stead of me showing you.

I like that joke you put in about  
Roosevelt. As I do not have  
any party because in the first place  
I am not old enough to vote. That  
is just second & last I am not old  
enough. But I sure can fight for it.  
That gets me mad now times. But  
Dad & mother always votes the  
Rep. way. So I just pass that  
joke on to Dad.

I am going to the show to night -  
to see "Gaslight." You told me to  
see it. I hope it is good. That  
is why this letter will be short.

So you tennis is not doing so good.  
I have been playing a little basket  
to get mine. A couple days ago I  
took off my stuff and the sun  
when I'm. That is always the way.  
Swimming is the same way. I have  
a cousin in Italy who goes swimming  
in the Mediterranean when  
it get hot. Some life I call it.  
But I guess you brother is in the  
same boat. Have you heard from  
him lately?

I read that part about you being  
it is as clear a need. I guess I will  
be to see it.

We had some important guests here  
lately. We had the King & Queen  
of England & the Queen of Yugoslavia.  
Of course they had a lot of M.P.'s  
when I saw them they were in  
a car. And you could not tell

just who it was. So I went <sup>IV</sup>  
last to the office till we who it  
was.

So they will be going to the  
show boat too. Did you tell them  
are you going a mother to them?  
But I guess you can tell them a lot  
about it.

You as well if I went to school  
to learn how to swim. Yes, I  
did. & I can put you in the  
school when I get back. I think  
about 24 good lessons. I guess you  
know who the new teacher will  
be. But all kidding aside I do  
not think you are bad in fact  
I have met very few who could  
come up to your standards. As  
I told you this British girl can  
not. When given you trying to  
find me. I have not went out  
with them in a long time.

Saving every thing until I see  
you again. By love I got a lot  
to give out with all kinds of  
Love allie.
