August 9, 1949
England

Dearest Martha,

I received your letter
of July 22 today. And you told
me all about Toni you had
with you when + when at
St. Louis. And how that you
you are at home. I sure hope
that this letter get to your home.
But if you are back in St. Louis
I guess this letter will be forward.

Things here are just about
the same. Of course I have a little
bad luck. I got a skin disease +
it is on my face. So I can not have
you should see the beard I got now.
Will you do not want to hear about
the St. Louis thing + the pictures
I have seen.

The picture up in "Lums" which
after the St. Louis play is very good
+ if you did not see it you would

It has a lot of good songs & a lot of girls & good colors. It's a lot better ~~than~~ ^{than} "Cover Girl" that is if you saw ~~that~~ that picture. I have a picture about doctor. The title is "Three men in White". There is a girl in that picture that really tugs & get a young doctor. Boy I need a girl like a man. Did you get to see that picture?

As for as your pictures I saw "Mr Deeds goes to town" & "The Awful Truth". But not the other two "Home in Indiana" & "Two Girls & a Sailor".

"Mr Deeds & Awful Truth" played at the mission theater because my dad wrote me that he had them. So that were you saw them. I missed "Two Girls & a Sailor" which was in comp but I want to turn that night. I hope to get in town as all the boys say it is good. And as far as "Indiana" will you would know more about that than I do.

We are having some out weather III
here now. I am still trying &
get to San Fran. but I never can
I guess this is just not my year.

You sure sounds like you covered
a lot of ground when the girls
came to see you. In fact you did
a lot more in those days than I
did in a couple years. You will
sure love to show me around
my home town when I get back.
That lagoon sounds very good.
I went on the Admiral and when
I was at Washington I. and we
got feeling good. But you will
sure love to keep open a night
so we can try it out. I never
wanted to go on so much because
I could never dance. But I will
get it a try when I get back. In fact
I will try only this once.

So you are better the better now.
I have thought you never back
drink. But I guess now & then is
OK. But I should talk. I have not
been doing so bad as that yet.

I am going to get a couple boys ^{to}
+ girls & get them ^{when} I get back
& get good + drunk. I never did
do that in my life so I will have
to try that once.

You are really getting a crowd
with the boys at home. First the
two soldiers + the 8 students of Notre
Dame. ~~But you see~~ I think that it
is right to go out with a lot of
boys + girls. I do not see an ounce
of staying at home especially when
you are young you can do that
when you get old. I have sure
learned a lot about life since
I came over here. And I have
learned a lot about women the
root of all evil. Well they sure
start your gray hairs.

That Notre Dame must
really have some thing good that
you go for and the boys from there.
What about V. of Indiana? Talking
about Indiana I got a boy in my
company who is from Indiana.
And he has been telling

me a lot about the girls from the
state. Do you happen to know
any girls from there? For ^{what} ~~where~~ he
says they are all good.

To bad they put off your
vacation. But I guess you will
be off it when you get this letter.
I hope that you have a very
nice time. If I know you, you
sure will have a good time.
I can remember that last vacation
I was at Jefferson Barracks.
I wonder where I will be the next
vacation. But you should be thank-
ful for the vacation. I know some
boys over here that never had one
in a couple years. But here I can tell
you about the bad mail again.

I will be looking forward
for those picture of you & the other
girls. I will enclose one of mine
in this letter. You do not have to
tell me what you think. I know!

So the patients are good to you.
I sure hope I could be you

patients some day. just that I want
to go to the Hospital. But I can't be
near you more than.

So you are still putting your
money on the Yankees. And you
give me odds of 2 to 1. Well, I will
make this bet with you. I will take
you out on 10 dates if the Yankees win
the pennant & you will take me
out on 5 dates if the Browns win
the pennant. That is how I feel!
Now if you got some other ~~per~~ bet fit
your ~~idea~~. And I will take just about
any odds on the Cards over any team
that wins the American ~~League~~ pennant.
Do I get any bets. I will write my
ded to night & put a bet on the Cards.
So if you want to I will take
you on too.

Well that does it for today.
I hope the vocator is O.K. and you
get this letter in time.

We had a cough good moon light
night this week. But no moon
to put it to use.
Missing you a lot.
Lots of love & many kisses
Hops.
