Miss MARTHA DARROW
LUTHERAN. Hospital
School of Nursing
ST. Louis, 18

Missouri
U.S. A.

August 30, 1944
Still England
D-1 Pay Day.

Dearest Martha,

It is pretty late at night and I do not know whether I will get a chance to finish this letter or not. You see I think a good night's sleep will come in handy. As we, the boys in the barracks, just got finish with a rough football game. And you know how I love to play football. I just as soon play football then go out with the girls over here.

Well, I just will not rest until I tell you about it. So I might as well start writing. It sounds like we, the team I was on, win. But we did not we lost the game 18-14. We played touch ball on the ground was so full of rocks & played on thing else. We made our points on stars touch down & a safety. Then the other team got 3 of ten & beat us. But we will play them again that is if we can get the boys to stay in one night. This is the first time the boys played any thing like that in a long time. So I guess we will all get out of bed looking like old men tomorrow. Do not ask if I saved any of the points. Because I do not do any thing like. I just do the duty work looking the boys out. I had a change but I miss it that is good. I played

ball at high school + I think I never saved any points in all the games I played. But that was ok with me all I like to do is to play & have a good time out of it. Enough about the game.

Now I will get to your letters like I said I would in my last letter. I think that they are not bad. For you should see one of the positions they got me in. It's all most as bad as the one you drinking at the fountain in Forest Park. I like those informal shots as you call them a lot better than the others. I remember that dress you got in by the fountain. If I remember right I got to get all the lace are stuff in the front of it all messed up. But that's Red one I will never bore to see that for myself. I guess that is all I can say about it. I will get her to see it. You know I am from Miss. you & you have to show me "remember". I am to get you from the Chemists as they call them or the drugs store very soon! In fact just as soon so I get a day off early.

You would not be interest in the weather, but because it is just this old English stuff. The family at home is ok I guess my brother is well on his way to the navy now. Oh yes my dad got 120 lbs of tomatoes out of his garden. I thought he had a small one. But that's not he did not. He said that a couple were about a pound each. Pretty good for a man who never raise any thing in his life except the children.

I have not done any thing good because of the lack of money. But that's all over me only on Aug 20. Letter of Aug 20.

So you saw the Jackie Cooper picture about 3.
Jurimille delinquency. I will have to see
that. And did you see the the cartoon they
had in the paper about him & the garter
do with him. I just can not see how a boy
is who was trying to show the right from right
wrong & then does it. Well that's him. I am
glad I do not have to live his life.

Really enjoy that cartoon about not
letting a soldier get his hair. I am just wonder-
ing if that is a dig or what. I know I did
get your hair in a mess a lot of time. But
the time I remember that night on the floor
of the nurses home. Well I always was
a bad boy.

I do remember that last summer when
you was in the hospital. For I did not know
whether to come to see you in the hospital
or not. I wish I could see you again but
not under the same conditions.

I like the way you are dreaming about
those women about & Raynolds. I never who
vent on one so I do not know how to
act. I guess you will have to show me.
You talk on & kidding. Boy if I had the
right place & you. I do not think I need
much showing. But I will need a lot of
willpower. I lost it all the first night
took you on the deck of that boat. But
in second thought I never did have
much when I was around you
any way.

Talking about horse back riding me +
have a stable near the house. But I
never did go. I guess I will some day. I
always said that I will talk my sister
to. I hope I will do that before she
goes to high school. Which will be in
a year and half.

I think I like that one concerning your letter.
And that is when you say that you will
be in St. Louis 2 more years. For I know
that it may be a long time. But I will
take me a long time to get back. I
know they did send a couple back
home 8 day. But the boys have been
over here for 25 months + they really
should get a chance to get back home.
Let's hope that I will see you before
those 2 years are up for you in St. Louis.

I like that part "You are until the
mom has no glory." I wish I could think
of a good thing to close this letter with.
But I guess the only one I know is
just that I long to get you ~~back~~ back
in the right place. And if I love to
explain you were that is. It is in my
mind. So then I can tell you how much I
miss you + enjoy your letter.

Yours as always.
With love + kisses
