No 22, 1944
England & still

Dear Martha,

I received your very nice letter of Nov. 6. I thought that you had forgotten me. I was just looking at your picture but you not me! And then I thought of all those night we had in the park.

I got a letter from my brother & he is out of the Hospital. He is in a new Conveyance. And he does not like it & much.

I have not been do much this month as I am pretty broke. But if you do not have any money it is no use going out & town. I think you are the only girl that I could see even if I did not have any money. But I really liked Dad. I hate to borrow money. And that is something I have not done ⁱⁿ this way. Because when you start borrowing you never seem to get out of the whole.

The only good picture I saw was "Destination Tokyo." But I guess you have seen it already. I have seen a couple of other pictures but they are not very good. So the least said about it.

the better

They have stopped the sales of cigarettes to
non-combat troops, which is our case. The boys
really do not like that. As they always did the
of smoke. It makes very little change in
my life as I still do not smoke and at the
rate I am going I guess I never will start.
If any body can tell me a way that smoking
will help you. I will start tomorrow but
I never found any body that I tell me. But
you should hear some of the things the boys are
saying about the 4th at home & the boys in the
camps at home. They told us that we get
every thing ^{as fast} but that is not so if the people back
home still do.

I like you just like in your letter. I'd like
me know that you are still thinking about me.
I think that is great. For this is a year now
that I have been over seas. At least it will be
when you get this letter. I had a lot of letters
from girls & boys. But now it has been cut
down to just a few. And a very few at that.
When you left they said that they would write to
me with the truth. Well, in some cases that
was a great lie. But in other it has

not been like that. I guess they think that
any body over here do not want mail. But, that
do not so. I expect it is more important over here
than at home. I have answered every letter I
got from any body. But still they do not write
back. But here I am again scribbling about
some thing. I better get back to you
letter.

I guess that Senior nurse makes you feel
very good. I imagine that it is like being a
Senior at high school. I thought that I was
pretty ~~important~~ ^{important} at school. Because I held down
a job as a officer in our class. I would sure
like to see you get the new ones in the ball.
I read all about your family with Mary Ann
going to school & your brother in the South Pacific.
It is not more mixed up than ours. I got my
brother in Idaho. But I do not think my sister
will leave home. She still got a lot of school
a head of her. I sure hope your mother
gets her wish & gets you all together after
this war. I would like to meet them some
day. Do you think that can be arranged some
day?

I hope that you get your wish & get home
by Christmas. It sure looks like I am stuck

x

we have for a while. I am just buying for
a couple Christmas packages. Every body
in the barracks got at least one but the boys
friend of mine & myself. One boy got 16 packages
already. I guess my day will come.

I was just reading that part in your
letter about the girl getting in late. And the
home mother getting mad. Was that you?
I know how I keep you out a lot. But I think
you get in on time. Is any body else keeping
you out late like that? But you sure
will have a lot of late night. If I ever
get a chance I take you out again.

I am just wondering if you have changed
your mind about me. I told you before I
left home that I want the truth in all
my letters. And I hope I am getting it. The thing
that ~~will~~ change my mind a number is the
way you love. Maybe I told it wrong,
because you never used this before. This
affectionately yours. Does that mean you
like me a lot? It would be a lot less
if you become we love not even each
other in a long time. So I know you might of
change your mind. But we will have to talk
that over when we get to see each other
again.

P.

This is my fifth page. And as you can see
I wrote so much that I run out of paper
& this is a different kind. I hope you do
not mind so much. I got 3 pages from you so
I do my part.

I told you that I want the truth in your
letters so I guess I might just as well start
it myself. I have met very few girls over
here that I like. But I got one I see a lot.
I thought at one time she was the right girl
for me but I can see she is not. I still got
a better one at home. I think I told you about
the way you kiss. I mean I really like it.
Will these British Dicks for me. I mean do
not know just how to kiss. I mean wish I
had to own one to show them. I hope
that you are keeping in practice. But then
do not practice so much. Because I want
a lot of that practice done on me. I
can still remember the blackboard.

I hope you are in good health &
happy. With all my love (I mean it)
I'll be, I forgot it stop
to you.

My dearest:-

Hop - I've got so much to tell you that if I get it written in one letter I'll be surprised before I start anything - I want to tell you how wonderful I think you are - I miss you so much - Don - and when this time of year comes I just about go nuts - I wish you were here this Christmas and always - I love you, Hop, and standing it until you come back is really going to be a task.

Your mother invited me over again this year - was that your idea? If it was your the most thoughtful person in this world as I've always told you that you were. I suppose you get a little tired of reading this, but it just swells up within me & I have to tell you. I have to go downtown now to get my reservation to go home - but I'll continue this letter as soon as I come back.
