Dearest —

Will you understand why you
got mad at me for not writing. I told you
that I answer every one of your letters. And
every time I get one letter you get one answer.
Well, I got 2 letters from you yesterday & one to-
day. So you see I just did not get your
letters, but now that I got them I will write
& answer them all.

I will tell you just about it. Monday I
got 2 Christmas packages from my mother.
And I got a package with a lot of things
stuff in it, like soap, blades & powder, comb, brush,
tooth paste. I got all that from my Aunt. The two packages
I got from ^{them} home had a lot of candy & cookies, also
a tie & a good pair of gloves.

But today I got 14 letters from just about every-
body I knew. The mail was slow but when it
comes 14 at one time I know it is slow. And just to
show you how slow it is. Some of my letters are
dated Sept 20th & 22nd. They must of put those letters in
a bottle & put it in a box & sea hoping that it
get over here O.K. or they put it in an row boat
& started out. So it just got here. To tell you just

2.
How fast it got here. (It meaning your letter).
I got one from Oct 3 & Oct 18, Oct 30, & then I
got this very nice one of Nov 12 & 13. the one you told
me just how you liked me. I answer that one.

Today is a very nice or good day. It did not rain.
So any day that it does not rain is a good day
over here. The weather not very cold as it should
be for Dec.

Last night & to night there is a full moon.

And you know what I mean when I say a
full moon. But the only trouble is that I do not
have the right girl. But know what I do with
a moon like that. I were wish I had you
around here. So I know what that I would
put that moon to good use. The moon came up at
6 o'clock so we could get a good long go at it.
Because it gets dark very early over here now.
And by early I mean 6 o'clock. I always think of
you when I see it up in the sky. Because
I remember how you are going to show me
a good time with that & a hay stack. If you
do not remember me tell me that well.

not be going out all the time. But I will have to have get my eggs spiced on the ball & tell me all about the new boy. Just because I did tell you all about the boys you go out with. Do not stop telling me about them for I like to know. As for my girls. I have not meet many over here. I do have one that I go out with. But as I said before I do that just to pass the time. Nothing can be come of it. I am just keeping in practice. I hope you understand.

So you think that Frankie is pretty good. Well you never heard of Kappy; he is very good singer. In fact you should hear him in a show. I said hear him, not see him. But all kidding aside I do have a vessel. But nobody can stand it. I will have to try it out on you! That is if you are near a hospital so in case anything happens to you not to me. On second thought I might be me because you may carry a good sized club.

Well that saying about isss & bees & roses & roses 'Brains & trains' & 'looks & looks'. But I do not have any. Come back for you now. I may get one later. I got a couple dirty jokes but you may not be interested in them & I can not write a letter stuff.

It may be because I just thought of it. Well, you show me all about that.

One of the boys shot a rabbit a couple of days ago. And they eat it already. And they did not have salt in the mudball. So it looks pretty bad.

I think I wrote you about the cigarettes over here. The boys will not get cigarettes for 60 days. And are they mad. But you should see them roll their own now. They get made a just throw them away. Or get out their pipes. I am glad I do not smoke. Dad wrote & said that it was bad over there too.

Now that I have used up all the news around here I will start on your letter. In your letter you are telling me about the World Series so you can see how old the letter is. I like what you have to say, "you lost one bet on baseball so you better stick to football." But do I have to laugh about that as you really lost on that Nats Don is Harry game.

So you are going to a first aid class. Well, at least I know where you are on Friday nights. You

I got the order about V-mail. And I will carry it out. I do not like the stuff very well. That is why I never write to you in it. But as long as you stay away from it I will do.

I sure got a big kick out of your skating. I went skating just 2 times. So you know how good I am. But I liked it a lot. And I will go when I get a good chance. Over here there is not much of that.

How about this joke. Her lips are kissing me. Her skin is watery proof & her mouth is 88 proof. Maybe you do not do that as far as that. I've lay over here said that it will be fast to get back to the States by airplane going in on the winning ration quota. What do you think about that.

I guess that does it for today. But that moon is still on my mind. I hope that we can put it to use some day soon.

I sure miss you a lot. But I need to see you. Oh, yes. If there is any other thing that you want to know about write. And if you want any thing explained in the last letter write. I will try to make it better. With love & many kisses,
Allen H. G.
