England

Dearest Martha,

It has been a long time since I wrote you but I have been pretty busy. And with all the holiday, I had. I found little time to write you. But that does not mean I have not thought of you. For I have, thought a lot about you a lot. I hope that you had every nice Christmas a happy New Year.

I could not tell you about New Year as you can see by the date that it is not the new year. And we still have 361 days until next Christmas. So do your shopping early. That is to a joke. But it's true.

I was invited out to a house this Christmas. It was a lot better than the last Christmas as the last one I got just got to this country. And I never did not know any body over here. Now that I do it is not so bad. But still it is not like the Christmas at home. And I guess I do not have time to tell you about home. I had an extra good Christmas. You see they let half of the camp off at Christmas & the other half at New Year.

2
It just happens that I am in the first half.
So I had a pretty nice time.

The weather here has been getting bad.
and the last couple days we had a lot of frost.
In fact it was very heavy. The moon was out
a little last night. And it made the first
sparkle. But when we got to town the
fog got bad. In fact they would not leave
the trucks get on the road because of
the heavy fog. So I had to stay in town all
night long. And was not to bed. By the
weather is very clear & the sun is out. for the
first time in a month.

Last night the weather was clear and
Calm. But that fog really moved in fast. I
guess I better get to you later now.

I am so laugh when I read about your
tests. As you know any. But I sure know
how you love to study & how you are like me.
I sure had to study.

I am glad you got my gifts & hope you
like it. I will be sure looking forward to
your gift. And write you when I get it.
I got a couple other gifts this paper from
the Church I went to. I was sure surprised
I had got that. And I got some pretty good

3.

from my Grandmother. That is about as far I get from her.

I would sure like to meet that room of nats you got. So one is a little plucky. Will tell her I am a big Wolf so we can get together. She what she could say about that.

I got that cartoon about the younger generation. It's true but they think they can have their sister for friends. Will I do not have any little brother that could do that. As Ray is getting bigger than I am.

I just do not feel like writing much today so I will close now. I am in good health & happy but tired. As I guess every body is.

With all my love

Edg.
