Miss Martha A. Danrough
Lutheran Hospital
School of nursing
Saint Louis, Missouri

Son, 12, 1948
Eyebard.

Dearest,

I got a little time so I thought that I would drop you a small letter. & let you know that you are still very much on my mind. I also have a letter of yours to answer.

I do not know what I told you in my short letter. So if I repeat myself just skip it. We had snow. I said had because we had rain last night and the snow does not stay long with rain. So all the for 5 inches we had are gone. But we had a lot of flights out of it. We had a big fight yesterday. Every body was chasing everybody. You had I would bet so you best friend would not turn on you. I got a couple good shots in but they got a couple on me. I guess Ed will end the snow stay for this Country. As I doubt very much if there will get any more.

The Waut. Danc. on this field is having a big dance & party. Do you think I am going

well yes. But not in the way you think. As
 I was & have H.P. this week. So they put
 me making several wishes for Christmas. I
 start to work at 5.30 but I don't know when
 I get done. But I still think it is better than an
 whole day of it. I do not like sandwiches but
 I guess after the first ten thousands I will
 love them. I will tell you more later. That
 is if there is any more. I am going to have my
 fingers cut to the bone. I need a nurse.

My nurse, I see, were they are going to
 get her in soon. It looks like you may be getting
 the letter.

Draft Board

Grubing:

You have been chosen by Hoffmann
 to write to him.

That is a little wrong but you got the idea.
 I hope they do not get you if you do not want
 to go. Then St. Louis will be close to you here.

Now let's take that subject of home, visit
 place & be. You remembers me of the time
 to my office ^{wish} in times remembers me of going back
 to school. After all that I don't get to the point
 I have any way to. They are talking as to the
 subject after the defect of learning. 100
 years I will go back to school. I will with

3

You were late if I get any more I write.

Say you really write your letters at last
time this one is 4.00 P.M. That is not a fitting
for man nor nurse. The only time that is good
is if you get the to right say in the right place.
Do you know what I mean?

I like that Christmas story you put in this
letter it was good. and I am happy that I
also get the inside you put in here. I sure wish
I could of met with you. But as I did not I
will keep it until I see you. Then we
can put it to use. Or do we need any? I
do not think so. Did you use any of it this year
I should say last year?

I guess that is all for now. I know that
this is a short letter but my thoughts about
you are not short.

I hope Daddy are in good health
a happy.

... my dearest love a lot of it.
A. J.
