Dearest Martha,

I received (2) two very nice letters from you yesterday. I could write a long letter to you. But I just can not write you a long letter. I guess it is because I do not do enough to write about. My thoughts are still with you a lot.

I did get a letter from my mother it was all about the party you went to at the house. Mother really like the way you help with the sewing machine and other things. She also write a long list of things they had to eat. And it really made me hungry. And she said that you almost did not get back to school in time. I guess I will get a letter about very soon.

We had a dance by the whole Div. last night. I had to work that night. I got it instead of K.P. I had to carry a lot of beer cases it was not as bad as K.P. But with all the girls there I did not pick up one. In fact I was so good that I did not have to go to

Chrud & day. But I went just to make me double good. ~~is~~ That a joke.

The weather, it looks like I always put that in here because I do not have any thing else to write about, is getting warmer & all the snow is gone.

a couple of the boys last night got ~~be~~ feeling good. If you know what I mean. But some of the girls they picked up. I ~~would~~ would not even talk to them if they were the last ones in this world. But every body to his own taste.

I got pictures of you. It sure looks like you had some snow at home. And you got in a couple good snow fights that one were you one sitting by the bushes. I can remember that time that was all covered with green grass. Leaves. And I would pick you ~~up~~ up. I was always late for our date. I sure had good time talking to the girls on that front porch the one night. I got there early. Thanks a lot for the pictures.

It sure sounds like you got enough stuff for Christmas. I would like to see that sweat sweater & check shirt. I always did like a girl to wear a sweater.

Of course not all the time ^{rights} just the times like
you did. and talking aloud & seeing things
how about seeing the pajamas, of course
you have to be in them. I have not had a
pair of pajamas on for a long time. In fact it
has been about 15 months now.

You should talk about your shower
being cold. Now ~~that~~ take us. We got a
building but it do not keep the wind out
then there is not no heat what makes it good.
And if they are firing the pipes as the usual
do you get a cold shower. The British
for the pipes. they stand Friday afternoon. That
is so you can not get a shower then. And
Saturday is a half day. Then fine it's late
Monday if you get a shower at all. Of course
Sunday they, the British, line up off. And what
would I do for a good bath tub. Where
I could go & sleep all day. Then I am leaving
again.

Guess that's all for today. I hope you are
in good health.

I miss you a lot and thinking about you
a lot all my love & many kisses.
Pop.
