AIR MAIL

Miss Martha Darrough  
Lutheran Hosp. Trk.  
School of Nursing.

St. Louis, Missouri

Feb. 2, 1905  
England

Dear Sir -

I was just ready to write you  
a letter to give you all kinds of best  
for not waiting. As I did not get the letter  
from you is 4 or 5 days. Then yesterday I  
received a very nice letter from you.  
Which I will answer in a little while.

I could not give you so much help  
the mail over here now is bad. Very  
few letters come in the last week. I did  
not get any letters from home for a while.  
Therefore I could not get much of you. I <sup>really</sup> ~~was~~  
was not mad. But it shows you that  
I really think about you. And miss your  
letters a lot. I know that you will keep  
on writing no matter what happens to  
us. And I will do the same.

Today is groundhog day. We had  
a sun out a little but not much. <sup>now this</sup>  
a hour. Therefore I doubt if he shadow  
and we should have good weather. Now  
I believe in it. You remember I was going to  
Washington D. C. to tell a few words. All  
that March & May. I had to take. Then I  
should believe a little animals can tell  
it for 6 weeks.

I must be going. Ed. O. Lapp. That is what happens when you stay here too long. But we really had nice weather yesterday. And I thought that you might like. And today it is pretty cloudy & a lot of wind.

I saw an English picture that I saw. "Happy Bred." That is the song that said the song from the yellow & cowards. There is not any yellow there. The picture was pretty good. They had a party running and the whole time with tea. They really go pretty well.

The whole night I spent at one of the boys house I know. This boy got married in the summer. And they are going to have a party. So I go over to the house to talk. For me I was at the wedding. He is a good friend. Last Sunday night we were out <sup>in</sup> the way. Each of the boys she went out on us. I thought if we only had you. We got her home. O.K. I guess it is the party that doing it. For it was the record that night. What should we do if it happens again? Is how much do you want for the advice? Just kidding.

I guess that's just about all the news for this side. I have Sunday off so I will be Monday or Tuesday before I get a chance to write you again. Any way I got to get something to write about. Instead of talking about your letters.

I read that one & V. Col. of the Union Exp. for 16,000 were made for. How are you doing? But maybe if the kids keep us they without need you. I have not much about the for war news to you as it's so ~~old~~ when you get there it.

Yesterday I got a Christmas card from my Cousin Ed & a card from My sister. Both letters from Mother. Your letter Dec. 10 which is not so new.

So you like of small dances well? I go for them myself. I guess we will have to get to one. And if you want as good as this letter does. I will have to fall in line with you all over again. I wish that your graduation would be far away then I would be sure of meeting it and I could be present.

This letter is really good & it is one I will have to keep. So if I get home I can read it a bit of you a lot more. I am sorry I can not answer it like I should.

I guess you ~~think~~ <sup>thought</sup> it in the morning when I  
can write things I like to but it's so late  
now. I wish it would so I could sit  
here & just write you how much I miss you  
the house & every thing. I want to tell you  
more than ever when I get home. As I  
feel that I missed the best part of you. I mean  
I wish I could know you like you write  
me now.

So you think my hair is so short & round  
up. Well I got a picture I think will change  
you of mind. What I will send you shortly.  
I like the idea of buying one of those  
dolls in my birthday. But I am not to  
more about it. But I will make it 46.47  
I know that seems long but it's looking long  
& gets here fast then we are much  
happier together.

I am really crazy about that  
even you read me. Did you make that up  
before about it. But it really says a lot  
& I have been ~~thinking~~ thinking about it  
since I first read it.  
I wish I could watch over you & keep  
you until I can get you back in  
my arms. All my love  
J.P.
