

Feb. 11, 1905
U.K. Sunday.

Dearest Martha,

We got a good morning like
day & day. as it is rain now. It started
at noon & is still going. I guess it will
be like that for a while.

The letter will be short as I am
pretty tired & will have to get
up early to night.

I had yesterday off but it looks
like if I get a day off I still do not
catch up on my sleep. But I will to-
night.

I did not do any thing important
that I need write about in this time
on my paper. I did see a very poor
English picture. But the best saved
about that the letter.

I sure have got a lot of letters
from you which I have to answer
I will do so with at the time. But it sure
would take a time to get up with
you.

I got some nice pictures from my sister.
She put them in a Valentine card. It
was a nice card very nice pictures.
I am beginning to think you were right
she is getting pretty fast. I will need
a clock to keep the boys away from her.

Mother said that ^{my} ~~she~~ ^{was} gone in for
cooking ~~to~~. And she really makes
pies & cakes. I run much & I could
get some. But I guess by the time
they get here. I must be able to ~~be~~
break the ride walk with it.

The birds are going all over the place.
Because I am just about a sleep. I
really need that sleep. I do not feel
in the mood to write a letter.

You sure are a great work builder.
For on this the 10 busy hours
& things about & home. I guess that's
what I really need more than an day.

So you are starving well. I don't
what I had for breakfast. I had
a ~~po~~ pint of cream, but a 4 slices of
bread with 5 fresh egg. That is the
third time in a week that we had
it at that rate the war must be
over ~~soon~~. As Dad's were happen
in the 2 years I been in the army, but
maybe they are getting good health.

My mother was of a former
dancer in jazz. And she said that
if Roy & I was here. We could after
brought our girls along. And you
you know who Dad would of been.
On the song sheet they had the Polly

3.
song was in it. So in the next letter I
got from her she told me all about
the tully rids she had while she was
young. It sounds good for a while
I like her all you know. Just with the
song. But can you see any body
having a good time on the tully rids
got now. You are lucky if you do
not have to tie yourself to the seat.
Doesn't she have the same type car?

So you like the way I tell my
stories about the women & the children
& the Kabais. I should be a writer.
You asked for the last chapter well
I will try to write it come of it. But
now I do not feel like it. What I want
I am in the right mood. You know
no writers are like that. But I
will let you to write it. Or better
still none maybe we can play a
little the part out. But I will
take some time.

I do not know where you got the
idea that I got a pig. Because I never
told you about it. But I did get one
& I like it always did like to keep it
in my mouth. Now as for as the
picture you are a little far. I do
not have a camera or film to get the
picture but I will see. Do not let
your hopes on getting one for I don't.

If you will.

My brother is down in Jeffport
Mississippi now at a D. M. school.
He gets to go to New Orleans every
other Saturday. I will have to write
him about those Southern Bells.
He is a bigger fool than I am. You
should see what a jerk he is
about. He knows he is just a fool.

Will you be just about
all for now. I am in good health
now as I hope you & pray you
are.

As ever

Prof.

as my thoughts
about you will not change.
