MISS MARTHA LOUISE DARROUGH
LUTHERAN HOSPITAL
SCHOOL OF NURSING
NURSES' HOME No. 1
ST. LOUIS 18, MISSOURI

England
March 1, 1945

Dearest Marty,

As you can see I received a letter
of yours and it was signed Marty. I always did
like to use a nickname but did not know
if you would of liked it. So I never put it
down. I started a lot of letters off with
'Marty' & had to throw it away because
I did not know how you felt about it.
But I like it. I also like to use nicknames
on every body.

I am listen to Danny Keefe on the radio
and he is pretty good. I liked him ever
since I saw him in the picture.

Yesterday was pay day and that is
a good day on matter if it is raining.
You wait all month for it the money
then you get it all the boys but you
got money from in the middle of the
month. And take the few penny you
got left to the nearest card game. That
night you play cards all night. Are tired
the next day and where are you. Just
the same as when you went to get
paid broke! I was just kidding
you. As I do not borrow money so I
am o.k. well for the first 20 days.

2.
I know yourself I never had
much money when I went out with you.

I really enjoy your letters. I am ashamed
of not writing when I look at yours.
The boys can not read how you read
it. I told them ~~you~~ had a code to read
it. I hope you will forgive me but
I just do not have the time & write
slow. As I am writing this at lunch
time. Because we got to work & night.
And if I did not write to you now. You
would not get a letter to-day.

This letter reads like you got back
a bad bad weather at home. But we
got the ~~marsh~~ day. As we got a lot
of wind now. But still a little sun.

You are talking me about the time you
had Sunday night when you wanted
the Wisconsin State. The transfer &
rest & bed. You really had a bad
time but what you need is a man. Why
don't you get one. Did you see my father
late. If you do just go up & talk to him.
As he said if he sees you he will be
always like to talk to the boys girls &
know. And the subject is just about
the same. But you can get him off
that.

3.
Now that the High school I graduated
from is doing good in basket ball he
is kidding all the girls in the school. As they are
all from a school on the north side.
He could not say much at the football
season but he is going to sit now. He is one
for that if you do not know by now.
They are playing the Infantry Blues. and
I am sure they are very good.

POSTWAR PLANS

This is your question that brought this up.
I would like to go to college after this and
I would like to go with my brother. as we
always wanted to play football to get on.
But I think I would be too old to go. as I
do not want to go to school if I am going to
go about when I am 22 or 23. The course I like
well something with the theatre. my whole
family has been in it. I like it a lot.
I like stage set, lights & things that are
needed. I would like to go to the opera. the
opera is a great place to go to see big
shows like the Mikado or others. So I guess
you love the post-war. but just get
to get this over with. and get home.

But I would enclose an article about the
theatre. you take it for what it worth.

We got a song one meat ball did you
ever hear a song like that before. I

think the man that wrote that was really ⁴.
hanging like you & me of course.

I am glad you think we can leave
out the middle too. I am sure I would
not need it. We had that big moon
again. It was big & sailing through
the clouds in the sky very nice. But
I wish I would not offend it as I got
thinking of you and all the time we
are passing with each other. The
night that we can but then all
to go & see. Some time I get letters
and become I have to write it & you
and not tell it to you. Maybe the last
I said about it the better.

Before I close I got to tell you some
thing. I have a letter from you. I
answered the first part of it but did
not answer the last part. That last
part is about the first date; the
hand stand; and the time we fell
in love with each other. I just
can not answer a letter like that.
As I just do not have the words to
put it down. Maybe I can some day
if I should try. But I guess you
better wait until I get you in my
arms. I have to go & work now.
I love you so much it can never be
told. I hope.

Arnold Says Fliers to Go Right to Pacific from ETO

WASHINGTON, Feb. 27 (ANS)—The bulk of U.S. airmen in the ETO may go directly to the Pacific when Germany is defeated, further disclosures from Gen. H. H. Arnold's annual report to the War Department on the Army Air Forces revealed today. The USAAF chief said that where possible men shipped to the Pacific will be given furlough home but that the urgency of war may make the number of such leaves small.

Touching on the technical side of aerial warfare, Arnold said that three types of bombers now in production—the B35, B36 and B32—are expected to be “more powerful and capable than those now in operation,” and that advances in jet-propelled aircraft had been so rapid that the original jet plane built by the U.S., the P59, had become obsolete and relegated to the role of training plane. He also declared that improved models of flying bombs will soon be ready for “possible use” by the Allies, and that new and more deadly rockets are being made for fighter planes.
