My Dear Martha,

Today I was a very happy soldier as I got 2 very nice letters from you and one from my Cousin Jo. I think you meet her at Regi. Party. I was really glad to get ~~that~~ the letter. As it has been a good week since I last heard from you. But I guess your mail is bad too. As you write that you have not heard from me in a long time. And I know that is some body's fault. as I write you about 3 times a week.

I went to the show yesterday in town and saw a British picture. It was the first colored picture I saw made by the British. The name was "Western Approaches." It was all about the cargo ship that sail to the England. And how one was sunk. Not a bad picture for the English.

I think I write you about the party, we had so I will not repeat myself again. Put out side of that the news is very little. I can talk about the weather.

As the weather is very good for this time of the year. We did not have any rain in about 3 weeks. The ground is very dry. The days are cold in the morning but about 10 o'clock on they are very good.

You once wrote me about a song "Don't Grieve me Jo." Well I heard Frankie sing it today. Not a bad song and not a bad singer. But I think I like the way he sings always. I really go for

That was as I guess it just got some thing in 2.
it. What damn. That about it?

This very nice moral book, the letter, had 3 cartoons
in it. The best one is a the soldier & his girl. Where
she says to him "Please Eddie - you promised me you
wouldn't drink any more tonight" and he's looking
at a soda ice cream of course. I had to show them
all to the boys in the barracks. They all liked them all.
They had a very nice word to them. Of course I got
kissed about it but I like it. The boys at breakfast
are still talking on how good it is. I think I told
you once what I thought. But if you forgot I
will put it in a few words.
It's very nice and I think of you more when
I smile.

I see my Valentine got to you right on time for
Washington Birthday. It's all my fault I should
have & late.
And which we are on great men. What great
Roman was killed on this day? That is what they
call it the 'eyes of March'. Do you know?

So you that our love started with the first
date. Well, I just do not know what & boy. as
for my part I could not tell you. It just seems to grow
on me. And it takes time for me to like any body. I
guess I am not the kind that believes in the love at
first sight. Although I was very interested in you.
And wanted to know you better. I can not honestly say
I liked you at first sight. For
For if you remember the first time was at Pearl
River house and at the hospital. Were?

You & Pearl. You said very little to me. In fact I hardly know you after this. But as you say that first date did a lot to me and I guess you. But an ought about the first time I saw you?

You said some thing about a spook show at Davis our Theatre. Did you say it? Dad wrote a lot to me about it. and said they had a lot of people coming to see it. I just wonder if you saw it. But I guess I will hear about it if you did.

So you think Notes some is going to beat Amy. Will Ray has been writing me that Mary will do the same. Poor little Amy. Well, I still say you better not count your chickens before they are hatched.

And how about the Yankees this year and to come this on them. I don't bet my dad took the Browns & Cards. I took the Cards. After your case I will take the Browns if you want the Yankees. Write me more about it.

Well, don't I guess that just about does it for tonight. I will answer that letter in the morning. In fact as soon as I find the time. I got to go to bed as I have a long day ahead. I will dream about you tonight. Like I was holding you in my arms. If only that could be true. But until then I will love you & will do so for a long time.

Love as always

Ray
