MISS MARTHA DARROUGH
LUTHERAN HOSPITAL
SCHOOL OF NURSING
ST. LOUIS, 18, MISSOURI

England
April 30, 1945 -

my Parent,

This letter is very close to 12 o'clock
therefore it could almost be called May.
The first instead of April 30. Today
was a big day in the Army as it is
the last day in the month. And that means
that it is payday. And any day you
get three £ notes is a good day (that
should be dollars bills.) But I guess you
get the general idea.

Since this is Monday night I went
to school. It was a little better than
last time. As I did not go last week.
I was getting tired of it because it was
all book work. And I like to see it
with my own eyes. (I am still from
misnomer). So it was a little better.

They had a good picture on so I
cut the class meeting part of the
class short, and went to the show.

It was "Princess & the Peck," with
 Bob Hope & a good looking girl, say if
 all the American girls are like that I am
 sure missing a lot by the being over here.
 That's what I keep telling them. But you
 can see when it got me. But back
 to the picture. It was very good & a
 lot of good jokes. The colour in it makes
 it good out the end is the best part
 I better keep quiet before I spoil it all
 for you. If you need to have a laugh
 as you are down in it now.

The weather over here has been,
 well I will tell you about it & then you
 can tell me. We had a cold Sunday
 and this morning the last of May
 April we found ~~some~~ snow on the ground
 in the morning almost May Day & snow
 at the same time. So you can see the
 weather has not been so good.
 I guess that will leave out our
 soft ball game tomorrow.

3.

I saw a pretty good English picture
Saturday night. It was full of laughs.
And a lot of their jokes are a bit
the backside. It's like a stage play
as they do not have a Hay's office & can
make me good dirty cracks.

I guess that is about all the news
for over here. We do have some
good rumors as all any company.
But I tell you would be a waste
of time so it would get just to the end
waste can. I hope you understood.

I will have some about graduation
of you. When I was writing from N.Y.
just before I left I thought this
would get here for you & Jeanne's
graduation. But this is out of the
question now. I am hope you
have a good time. That's right.
But to just one thing come true. I'll be
the night think of me. I will be
trying to put my arms around you &
kiss you. But be sure you
have a good time.

I feel a little happy & bright why?
Can not make it out as I do not
get any mail for 2 days now. Oh, well
I will live.

And while we are on letters I would
like to know what is to about
your letter letter. I wrote about in
a rough letter a go of you. Here are
one question: I would like to
know & you I would like to
don't get. But may be it will be better
if we wait & do so until when we
get & get. As I get more thing for you.
May I send you of not I suggest it
up again. But put them it until
after the war or not?

We just passed passed over
full moon stage. I am now had
you here & see it. It is a little
& cold & stay out & ride. If I had a
car it would be like. Right?

Well I guess I better go to letter
sleep. I quit thought you would
like to hear from me still.
Lots of love from
Hop.
