My Dearest,

My Dearest,
I have not written to you for a
while but I just did not have much
to write about. I hope this scan in this
letter.

I had a day off this week and I spent a lot of the time in town. I saw 2 shows for the first time in 2 weeks. Boy I sure did miss the shows. One picture was the "Her Man Goes Home". I found it a murder picture and they kill every body. Dad always said that they kill every body but the woman man in those pictures. I don't like them.

The other show was pretty good. The one picture was "Nothing But the Lonely Hearts." It was pretty good. But I liked the second picture they had with it as it was "Three Little Sisters." I had a lot of songs & gipsy & canary & girl & job & girl & short picture but all middling - nice. This picture because it had some good jokes & sang & dance about the soldier. If you seen it what did you think of that one song in it. I think the name was

2.

Do not, for get the fruit back home. "Did the
Gt. laugh when they played that. I differ
see it a lean it."

I also had a big load this week as I
had straw beans & rice cream. That is the first
I had like that in 2 years or more. And they
were good. The straw beans were fresh &
some of the fruit to come out over here. They are
still high price just like every thing that
first comes out.

I have not heard from you since that
long very good letter you sent me about
a week ago. But then I have not heard
from Mother or Dad or my brother. But I
guess he is at sea now.

Told you not to write any more like I told
you. But I still should have care on the
way. Well that is enough crying for
now.

We drill in the morning & play games in
the afternoon. All last week we had
rain. But this week we want no rain &
get us out of the drill. Well the rain

nervous comes. I guess it will not. as we had a
 couple very good today this week. I do not
 mind much the game but the drill makes me
 think of just coming in to army. I guess they
 are getting us ready for the 5 & 6 am. parade
 one day a year, I believe. We are practicing

I would like to go swimming well get my fat
 wither since I can not swim. but it has been
 a long time since I did it. And I would like
 to take you to Port Huron in the future. Did you ever
 go there.

Well, I don't. I have to be little marching
 now. I. I better close now.

I still miss you and those letters a
 lot since I do not get any this week.

I hope that you are in good health & happy
 as I am. I do not have that much with me. but I
 still feel I could be pretty good now.

Love from
 J. H. P.
