Thanksgiving

Dear Martha,

I just got out of the
mess hall in camp the picture
was pretty good.

I have been waiting for a
letter from you. I have been
wondering just how things
are with you. I hope to
get your letter soon.

Today is the big day to eat
until you can not move.
Well I did not get to full
as I do most of the days. But
I did O.K. today. How were you?

The last Thanksgiving day
I remember was the one just
before I went overseas. Really
did eat myself ~~more~~ full
that time. Well I had a lot to be

thankful for. I got thoughts this
was ok. And a lot of other
things.

The boys have been around
me all this time. They are
really kidding me about
getting out. They come up
here all day & night telling
me that I must not get
out of the army until the
Christmas of '41. Well, I shall
be a lot longer than I thought
when I was home. And boy
have I been mad about that.

I have not done any work
since I been back here.
and I do not think I will
start in working again until
they catch up with me. I will
wear out this bed soon at
the rate I am going. All the
is up at the office twice
a day for 15 minutes. And
then I am back in the bed.
Oh what a life.

You know I really like writing to you a lot. And the last time I was down here I really missed your letters. I was not going to tell you that. Maybe our letters will not be like the ones I got overseas. But it is good to hear from you. So write when you can.

I am so sorry about that 30 days I had ~~had~~ at home. And I hope that the dates we had this time were better. I really liked them. #

I want to be very true with you. I think that things are not like you want them to be. I am sorry I do not feel that way. But when I see you I want to find out about it. I like you a lot and thank

have changed a lot since
I saw you in Aug. I hope you
understand. If not I will
try to do better. But I tell you
what I would like to the
way I want it is to see you.

Do you know that mother
really goes for you? And when
we were not getting along
in July & Aug. She did a lot
of asking about it. Maybe I
should not of told you. But
some times called her. She will
like that a lot.

I guess I better change the subject
as I do not have material on
it. The weather here was cold
this morning but in the after-
noon it got pretty warm. I
thought it was really football
weather but it turned like
a spring day.

I was pretty good today

War Department Personnel Center III

Fort Sam Houston, Texas

as I went to church today.

I saw the picture "The Blonde" it was a good picture and if you need some good laughs see it.

After the show I went to the U.S.O. and they had a formal dance. It was the first formal dance I have seen in a while. I was just wondering if you will have one before you go out in Feb. or March.

I got a shot in my arm and does it hurt. That is my left arm. And in a football game yesterday. I got my right leg hurt. Not bad just the muscle in the upper part. So last night I was in a bad condition. Oh yes we win the game 12-0.

The boys fixed up their friends
bed last night. They took to
spring out of it in the center
and when he got in it.
The matter shook & cover &
hair all went to the floor. He
had a hard time trying to find
out who it was.

And another boy had water
put all over his sheet. So he
could not sleep in that bed.
Well, that is just plain part of
the life here.

I better close now as the
boys want to sleep. Write
soon as I would
like to hear from you.

Love

Atty.
