JEFFERSON BARRACKS
MISSOURI

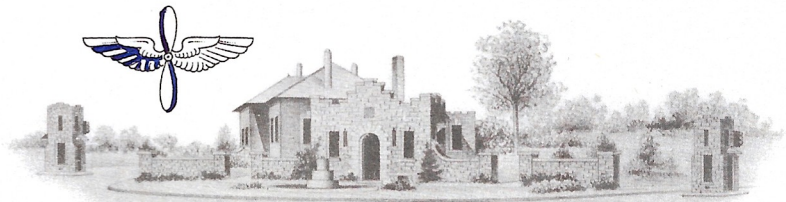

Sept 17, 1943

Dear Martha:

Well here goes on this letter, which I never found time to write. Boy, my reasons for being late + not coming are getting bad. But honest, dear, I try very hard to see you. If I do not want to go out with you. I would not make a date so I would have to break it. But honestly I want to go out with you. Say did you see that moon last night. Well it is getting smaller every night. It looks like Thursday was when we had a full moon, but I was not interested in the moon but something else. That is enough of that.

Say did you hear about the busy worker, like you are. Here I go on a job just to give you a charge to sit down before you fall down with laughter.

"an earnest worker, newly employed by an aircraft plant in Ohio, was informed that the factory was on 24-hour day

basis. He went to work + when his foreman came in the next morning he was still on the job.

"Well, boss," he reported, looking distressed, "I got along O.K. for the first 24 hours, but between you + me, I'm pretty much worried about the next 24. Now tell me you hear that one."

I took a little nap and had my dinner and well we start again on a full stomach. With me having to stay in Friday and Saturday night it looks like I will get some of my sleep that I lost in the last 4 weeks.

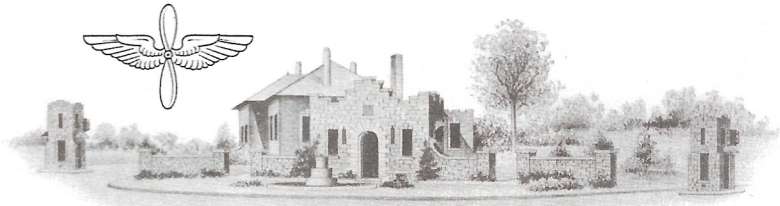

Now here is the thing that tops it all off. Our team lost is game by the score of 6-0. It was the first time this team has beaten us in about 3 or 4 years. And the first time that they scored on us in 2 years. They could not gain any ground through the line

because we have a damn good line.
In fact the lost in about every play they
tried through the line. So they tried
to go around the ends but they could
not get around the ends we have some
good ends. So the lost some plays the
passes. They tried about 10 passes but we
were lucky that they could not catch the
ball. The lucky pass came in the last
quarters with about 35 yards to go. After
trying about 2 plays around end and
did not gain. They passed the ball about
10 yards and ran the rest for the points.
The coach + my boy both told me that
one of our players was slipped therefore
the points should not count. But the
referee did not see it. Well we can not
cry over the water under the bridge.
We play a game Friday night across the
river. We will win that game. I hope!!!
Well that is enough about the game.
Of course I saw a lot of people I
know from school and it was good
to talk to them again.

This is my last pair of paper so —
I guess I better get some more. If I stop
now I will never hear the end of it.
Say you can write me and tell me
who the girls you had for to-night.
I will talk to the boys about something
this coming week, maybe Tuesday I am
just thinking that is not the last word.
But more about that latter.
Did you hear any jokes about Mr. Anthony?
If not he goes.

A man brought his troubles to the radio
Good Will house. "Mr. Anthony," he began,
"my best friend ran away with ~~you~~
my wife. They've been gone a month —
and, Mr. Anthony, I miss him!"

How about a little lesson in Biology
A professor of biology who explained to
his class the spawning of fish. "Do you
see," he concluded, "the female fish deposits
her eggs the male fish comes along &
fertilizes them, & later the little fish
are hatched." One of the girls held up
her hand. "You mean, Professor, that
the father & mother fish & that

they — that before that nothing happens?
"nothing," said the professor, "which
doubtless explains the expression, 'poor pit.'
That is enough of the pink stories. I will
now get to you letter.

We had to wear this gas mask for
a half hour. Boy I hope I can get you
in one of these K — chambers. you get
about half a much of air as you like
to get.

Say that paper you had is O.K. I like
it. And the drawings on the back the
is really root-ey or O.K. or no the sphere or
ball.

You said that you can express
you thoughts better over a phone than
you can with the moon glaring in my face.
What was that you can tell me. are done
I heard it!!

You asked me how I like living in tent.
Well, It is O.K. But the weather is very cold
did you ever try to get dressed in an ice box?
well don't try it!! unless you like it cold.

This has to be the last page the words are
giving out. Did you hear the one about
the elderly woman. no well good.

an Elderly woman was shopping for
a hat & the salesman kept showing
her new types of head gear which
didn't suit the old lady at all. Finally
she said, "Listen, I wear a corset & I
wear drawers, & I want a hat to
match." That will be it thing &
end.

I do not have a line which I
can up down on paper. So you will have
to send this kind of letters. I just can
not put down that on paper.

Will see you soon.

Yours for ever
J. S. O.

P.S. I am waiting to hear what you have
to say about you for ever, and not Love.
