

Dec 4/1942

Dear Martha,

Well how is the nurse these days?
I do not have much to say so this will be
a short letter. The weather here is O.S.

I wish your mother could be in L.A.
and I could have met her. I would like very
much to meet your mother. I do not stay
long enough to see L.A. but I wish I could
have seen it.

So your brother joined the
marines some time I wish I would have.
But I could not have been home so much
and then I would not have met you.

About that ring of mine, which ~~this~~ has
caused a lot of talk, maybe when I get
back home we can do something about it.
But right now is not the time or place.

Say St. Louis is not that bad off for
men. I know the army is there. But a 45
or a man with 2 pairs of pants to one suit
is harder to know. In fact I do not know
any boy who is here. The last one I know
just left for the Navy. But I can give
you my brother's address.

Say that is good news about you making 100% in the anatomy test. Keep up the good work, and I mean work. Laughs!

My dad has the picture "For whom the bell tolls" at the museum and he said they had a big crowd every day. The way you talk I will have to see the picture.

I like you attacked you asked I wish I could have seen it. You can save it until I back I would love to see it done on me. And you better watch the M.C.'s or is it too late to tell you. Bye now. ~~it~~

I like all the "sealed with a kiss" I can not put them on my letter because they think it is code. And I can not put down 'cross' for kisses. But maybe I can get them later. I hope it is not much later.

I saw N.Y. City a couple more times but there is not much to say if you do not know anybody in the town it's hard to get around.

Well that's all. With Love & kisses
Wop.
