Dearest Martha,

I am starting this letter at 7:30 A.M. as I am up early & done my daily morning duties. Like making the bed, & clean the floor and all the thing that you have to do in the army.

Bag yesterday, I wrote you a small letter, I am sorry that it was so short. I hope to do better this time. I also put in that letter that I was trying to go to a sunrise service but the bet was a dollar to the doughnut. Well, as I can not get the doughnut you will have to send it.

H. A. H.

It is the first time in this part²
of the camp I can now that I
got up so early. I rolled over
& looked at ~~that~~ the Big Ben,
the watch in other words, and it
was 6 o'clock so I got up. Well that
is enough of that.

The pictures I saw last
night was good. It was "So
Proudly we Meet." I wrote to you
so about it yesterday. I guess
you saw it a long time ago. I
thought it was very good. I
can now see why you want
to be a nurse. Why even the
road nurse means a lot. A
way ready to help so body when
& where ever you are called
upon upon to do so.

I know that you have the
thing that make a good nurse.
I hope some day to see you in
that uniform again. Just to
know you is one of the greatest
thing that I could of done. As
you can see now that I better
not write no more. I am not
the kind to do that. I mean
write like that. But that picture
really did a lot for me. I
wish I had you in my arm now.

In reading the part in your
letter were you say that you
miss my letter. I am glad you
do. But Darling if you knew
how much I did a letter from
you every one in a while. You
see I do not need a letter every
day. I will tell you why.

You see I receive your 4th
letter well I read it & the
first change I get I will answer
it of course. But when I write
to you I need a couple of hours.
Because it is so hard. I have
so much to tell you & do not know
how to say it well as I say I
received & answer your letter
which is about 2 days. Now
for to now day I think about
the letter & of course it makes
late in you because it is your
letter. Now that is 4 days and two
or three more I wait for a new
letter & that is how the weeks
& now months have gone by. I
hope I do not have to put you
on that list. Now do you see

how my time is taken up.
and when every it gets to long
between letters I have to
read over you old ones. I get
a lot more of them in my ^{way to} ~~red~~
reading of them.

You also said some thing about
I forgot you. That I do not think
I will ever do. Just like you
so much that it would be hard
to do that. I have you on my
mind a great part of the day.
A great part means just about
all. I am thinking about the times
we had & am hoping for the
times we will have. But I need
your letters so much. I guess that
is one thing I can never repay
you for. In fact I would not
know were to start. Would

you know?

As I told you before, we went
to the show on the post. Well we
could not get in the front way. So
I told them to come around the
back way. As I been in a
couple of theaters. So I told them
I know the way. Well they
had a S.T. show the night before.
So they had a lot of stuff all
over the stage. Well I go over
it all right but the other boys
had a fun. His leg kicked the
light switch & the lights went
on all over the place. Well
the other boys could not see
the picture because of all
the light and so he started
yelling to turn off the lights.
Well the boy that was with
me who turned the lights

had to go back & turn off
the light. I was laughing
at him all the time & if you
would of been there you
would of too. But for see
I had to see the pictures
and so we did.

I am now in the Red 'x'.
we got in to town & had
dinner and went to church
again. Then we took a walk
in the park. I think you wonder
the walk in the park. on second
thought we did not walk
to much. They had a swing
and we went & swung a bit.
I guess we looked like
children again. By way we
felt like one. There was
4 of us.

I was going to answer your 8.
letter but I see that this
one is too long now. I
hope you do not mind. But
you see, I will give me
some thing to answer tomorrow.

I thought we were having
a good weather. I think just
about every Easter I had
to do some thing it rained.
and this one is like all the
others.

With all my Love
until we meet again.
I will pray for you & Miss
you.

Love

Wm.
