AMERICAN RED CROSS

May 20/1944
England.

Dearest Martha,

I received letter
from you today + one a couple
of days ago. Boy and I both
in writing.

Things here are so very
quiet + dull. It was ~~all~~ ^{the} worst
for the first couple of months
but now that I have seen
every thing + done everything around
this too by four place. I would
like to move again. I guess I
have been on the move so much
now a little more will
not hurt. I am just wondering if
I will get back there when I get
out if I get home again.
The boys have got a good
saying. You have heard of

AMERICAN RED CROSS

2.

Calif. or Aust. Well ours
is "The Golden Gate of '48." How
do you like that?

I ~~have~~ saw a picture
about nurses. It has been
the only picture I have seen like
it. The name is "The light still
burns." It is a British picture.
But it tells the hardship
& work the nurses goes through.
When she thought she had come
tired off she had to go to school.
But she almost got picked up
school for drunk & been & talking
back to the head nurse. But
she starts a lot of changes in the
system. But here is the part you
should like she falls in love
with a ~~man~~ ^{nurse} who is sick.
Of course he gets better

AMERICAN RED CROSS

3.

I she loves her. But she's going
her up so she can be a nurse.
She will marry him when
she can still a nurse.
And the picture ends with
her going up the stairs to school
& him to work. I sure wish you
could see the picture. But I
never get over
guys it will ~~never~~
there.

I understand that it is hard
to stop for tests & write. But
as I wrote to you before. Just
stop. I want to hear what
you have to say in person
not on this paper. The nurse is
cousin just your family & then
your boyfriend & the me. So
Please do not write so often.

AMERICAN RED CROSS

4

I can not say that I do not miss
your letter because I do. But
just a note will do just as
good as a 8 page letter.

I thought I was seeing the
old picture, but you say "Union
Pacific" that take the cake.

I see in your letter that your
mother was like mine. I had to
stay in night after school study.
But if she did not do that I would
never pass. I did not have
mother around at Washington U.
& look what happen to me.

That French at the bottom of
your letter has got me over
a barrel. I will push over
& find out what it is.

I just got finish with supper.

AMERICAN RED CROSS

5.

I guess I will close so I will
have some time to write to you
as I got a number of letters of
yours to answer.

I used the wood miss
so much that I am afraid
to use it again.

I wish I could take
you for a walk in the
park near your school.
I could tell you a lot more
than I could write.

I hope to see you soon
with Louis
may God watch over you.
Aff.
