St. Louis, Mo.

May 12 1894  
England

Dearest Martha,

I did not write yesterday  
like I said that I was going to do.  
Will you please be giving me  
I was just having her talking  
to one of the boys. Around all the  
old times when you could get ice  
clean + there was not so gas ration.  
Boy was that the life. I never know  
I how good I had it. But I have  
leaded. What I would give for  
a ice clean sold now.  
We are going to the show on a  
little while. To see main curios.  
I think you saw that picture.  
I have to see it.  
We are having a great deal  
of good weather here. I hope  
that it lasts long enough.  
Things here are very dull.  
In fact I don't feel like doing any  
thing. But just sleeping.
