Dearest Martha,

I thought I was
one of those soldiers that get a
lot of mail the first couple
months he was over seas.
And then the girl would go out
& forget about the boy over
seas. Not that it is fair to go out
in fact every body should put
as couple letters now & then would
help things. So there I was about
a week or half with out any
letters. Well at least I can tell you
so I got a letter. And it made
me happy. But yesterday was
good. I got a letter & a card
with the pictures of you in it.
So you are a lovely letter &
head of me. And now I have
to do a lot to catch up with
you.

I was just trying to think what
I said this letter to your house

door to the hospital as the
mail system is so slow in India.
Say as they use the train now or
do they still use the pony
express. You would be a good
ride as you like horse a lot.
You can purchase?

Last night I stayed in Camp
again, and went to the altar
the had a picture about the
navy. Nothing to write about
soldiers I will not stop.

The boys had a cough, began
to cough & came in last night & played
Quarto until 11:30 in the morning.
Our barracks never gets quiet
until late at night. The boys
all say that they never lived
in a barracks like we do now.
That is all the news around the
Camp. So I will get to your letter
now.

I am glad you got the book off
and I was going to send a picture
too but I sent them all home.

I have a couple coming in next week I hope. so I will send you & you if you like it.

You said all you need was a full man & that's all. I know we're trying that will help a lot & that's the right kind or boy. What I was going to have you under that moon in a civil boy stock. But come to think about it we did not have that moon in the park on that night of the blackouts & we did not do to bed. Of course I guess you have to practice. See - are you better not get to bed.

I did not know you had a uncle in the army & to top off the surprise he is a Chaplain. I sure wish I could share his point about the war but I am afraid that he is not right. God gets him that moon is a little & fat. They will need some boys on a level with the war & I am just the right kind. So if I was you just put the home point out of your mind & be

I did.

IV

I'm like you point on getting
monies. You see I think that we
young people can have a lot of
things that later on in our
life leave. But none of the numerous
to service our getting married at
the rate of 4 or 5 a month. But when
you get married you should not
leave you wife or husband. That
is not married life & get married
& then come each other.

You really are a lot of fun
but I guess you are like me. And
can get a slow just a lot every
day.

You are talking about going home
I'm just trying to think what
it will like like for me. But
I guess I will go on cleaning.

Well, I'm here now. I have
a little work to do.

I wish you get the interest in
these things. So until I get them
I will be trying of you a lot
With love & care lots of it.
Alice
