Dearest Martha,

To day I received
some more letters & they were
from you boy & I have to
do some writing & keep up
with you. I sure can not
see how you have time to
go out. But it is really good
to hear from you. I guess you
know how I feel. Because
I did not write to you for
a while & now I have been
writing 3 straight days.
Right now I got 4 of
your letters. Letters in from
Jafone. I will answer the
two of Aug 1st ^(one) first. And the
two of Aug the 2nd to morrow.
I guess you would like
to have a little news. But
I wrote just about all of

But the last 2 days.

We did have a dance at
camp yesterday. But it was so
cold that not many people
stayed. In fact it is just about
the coldest we ever had there,
more like home.

I took a bicycle 16 miles
last night to see a boy that
I can see with. He was
down our camp once but I
was never up to his. I found
after at night & all day work
I did not find him at home.
But I am getting lazy & that
will not make that
much different.

I got that address book you
sent me. Thanks a lot for
it. You are sure right when
you say that a soldier needs
^{one} ~~not~~. I am always losing the
addresses of boys & girls at home.
I do not have many addresses
from over here.

I think I will put all the addresses
I got from home in this one. But
I was very surprised to see that
you did not put your address
in there.

That movement on the front of
that book is like one I saw down
in London. I have wanted
London only once. And I hope
I see it soon. But I think I will
wait until it cools down
a little. I saw one of those
flying things + that was enough.

You know that you have
seen my home town + I bet
you could show me a lot of places
to go to. And I sure hope you
can. But I have never seen
your town in fact I have not
~~seen~~ many towns out side of N. York.
I sure wish you could show
that great city (second to St. Paul's)
of your home day. But then
I go downing a gain.

I love more in the past + future! It
that does in the present. (Refill)
But I guess every body does a little
dreaming some times. But I do just
a little more than anybody
else does.

Talking a writer about dreaming
gives me a chance to tell you
about last night. I went to bed
about 11:30. But the boys put
out 5 play cards. So the game
kept up until 1:00 clock. And
just as I was about to go to
sleep. I remembered I forgot to
tell you in my pass. So out of
bed I get & went to take the
pass back. I could have waited
until tomorrow or early in the
morning but I would of got
extra work for getting it in late.
But you should of seen the
slaps that were at about night.
The sky was just covered with
them. It looked like a thousand

little ^{the} eyes sitting at your.

And the moon was not a
big one like ~~you~~ you wrote
about but it was a small
one. It looked like a canoe on
a sea of blue. You may have had
a blackout here. But the stars
& moon put you on 42nd Street.
All you would need was the right
film & I think I know her. You should
to.

Out of the stars & a joke I read.
"a billowing officer in Southern
England got quite a start the
other day. Two ghosts drifted
in, claimed they were look-
ing for victims & asked for
another house to haunt."

Joke over!

I would sure like to thank
you a lot for the cards that
I have got. Over here you
just can't get any good ones.

I like that part where you say that
you would not have to be
in by 12 o'clock. But we were
both in the same boat. This
any do not let you say out all
night long. I was just under
what we would do with
all that time. I was kidding.
I know one thing that would
keep me busy almost long.
But that is the house I have
to catch up on. Am I right?

The house got in that boat was
not bad as you say so. In fact
it would look good on a big
day. No, but the always said
"It does not matter how it looks
on when it is. But was it good
as I am so you feel." Really weak
in the knees after ~~that~~ one night
in the park.

Well I guess that is all for now.
I was with tomorrow or Sunday.
If I put this you it's a big under-
statement. So just ad my love
