Cap. W. J. W. W. W.

Sept. 10, 1944

Dearest Martha,

Well, I finally got around to writing you in trying to answer your letters. But the place around here has been pretty busy.

I went down to London last week. I had a very nice time. It is good to get back to a large city again. I did a lot of things. I saw the picture Mark Twain which you have already run. I think you will see that you ran it at home.

I had steak for breakfast dinner & supper. So you see I did not stand short. Well I won't do when it comes to food. as I guess you can see.

That city is really full of it. by you would not have a hard time trying to get a date there.

We went to wait on him a bit 2.
to get a bed to eat & wash.

I went to a dance & at the
dance I met a nurse nurse.
The place was a old opera
house which they changed over
to a dance hall. It is a very nice
place. In fact the best I have
been in but then I did not do much
dancing at home. The nurse I met
was just about like you. About
the same height weight. and
looked a lot like you. She had
3 week vacation. like all
nurse do. for the lucky people.
She came from Ireland & every
time she talks you could
tell that. I don't think she came to
England to be a nurse & has not
been back. Because they are not
allowed to go back to Ireland.
Well that is just about all about
London. I did not see any

new thing. The next time I will
love to see a lot of things. In fact
of still sleeping. Sleeping.

I went down there to see some
flying bombs but I did not see any.
In fact the are going to turn on
the lights when I was down there.
As I guess you read in the paper.

I am listen to the radio and
I heard that a song named "Matti".
I think that it is very good. Did
you every here it. A.D.

Well now I got a letter from
S. I guess I better get started. I am
very tired because I did not get
my sleep last night. And I want
to get to the store to night too.

I sure like the way you
start you letters. Well, any way
this one. It is so bad that your
mind does not stay at P. H. House.
Because my is there a lot of
the time.

Say that must of been OK. Love
the girls meet you at the train.

17

I wonder you say it will be fine
I get a chance to love some body
meet me. But then it will be the
family as I think that I will just
about be the last one there after
this is over. They want no younger
boys.

I am glad to hear that you got
crowded at home (your home). I know
that you would never let grass
grow under your feet. That's
what I like about you. You
can make friends so fast.

I think that to many people at
home & over here that this
will be over soon. I do not of
course this side say but brother
about the other side. Well, we
all hope & pray that it is over fast.
But then look at it this way.
Take the longest time that when
you do get back. You will think
it was fast & you then only had
a couple years over here.

I took 4 years to get at the
day back last year. And
look at how ~~to~~ many more they
have now here this year.
and how my place the same
to gas guard. Will that I might
about that I could go so far as
at that but you do not want to
hear that.

You are talking about our lot
in the "Gambis & Browns". Well, I guess
I was put there as the "Gambis"
are in the shop again. Well, we
will just have to wait. But
the Browns just have to wait. Not
because of our dates but they did
not win one in their history.

So you little brother is a fine
Guitar man. Well, I will have to
take it easy on you. I hope that
I do not get any more broke by
you. I was took in by my sister little
before I left here.

We do not have to play stoppakei;
because it is to cold here. But the
boys do play with a lot of money.
I saw a couple hundred dollars
bet on one card. But I just can
not see me play card for money.
I like better this spending it.
You are right about your signs.
I like the green shirt class of
schools better than the orange.
You can make it better.

Will you guess that is just about
all. I have a cartoon that I
will enclose with this letter.
What do you say about the strips
on his men over seas. Each one
is 6 months.

I hope that you are in good
health & happy as I am. I do have
a cut on my finger. The doctor had
to cut it off, but it is getting better
now. Miss you a lot. Keep smiling.
Love
Ollie.

"ANYTHING NEW ON MY TRANSFER, SIR?"
