Dearest D.

Sep 8 14 1899.

This is the next day. I got a letter from you today but seeing I am writing this letter. You will have to wait until after I get back from my pass until I answer it. I always like to answer your letters, letters for letters.

I think in one of my letters I said some thing about the lights going on over there. Well this is a joke out of the stars & story about it.

A lot of youngsters never see the lights so when they did come on this is what we said. Looking out of the window games & illuminated streets. He stared at the glittering lights for a long time in a great silence. Then he called to him rather excitedly. "Mummy look! all the stars have fallen out of the sky!"

I saw a pretty good picture the Great Western about 1870. No soldiers or sailors.

I miss you a lot & on a night like this all I wish I could be with you.
With love & kisses Ollie.

Sept. 13, 1944
England

Dearest Martha,

Well, today I finally got around to answer your letter. I guess I do not have any good reason why I did not answer it before. But I have been writing a lot the last couple days. In order to get up with my letter. The two days I spent in London really put me behind when it comes to writing.

Things around the camp has been about the same. The theatre here did not have any new picture so I can not write about the shows I have seen. In fact we have not had a show for a couple nights. I guess the only new thing is that the boys came back from their leave. And we took all the springs out of the beds. So she had a good hours work trying to fix it up.

I do not know how long I can write today. As I may not finish this letter today. But I will sure finish it to morrow. Did I tell you that my little sister it should be big sister now,

is really swimming. She can swim 20 yds. ^{it}
a mile of the Woods. When I first left
home she could not do any thing. But
all done this summer. I will have
a take lesson for her this the next
time I get a chance to go swimming.

Well, now you swell letter of
Aug 23. So you still are not in favor of
V-mail. Well, I do not think I wrote you
any. But I may if I have an short on tent.
You know that some day. I may not
find the time to write as much as I will
have to use the V-mail. I guess I will
be put on your Black list then too.

I thought I was the only one that
got my breakfast in bed. Now I read
that you do. I remember when I was in
5th house how you would tell me it's better
to get up for breakfast. And now you
are doing just what you say is wrong.
Now I will submit it in like you did to
me.

Say Lou is the jitterbugger of your
series? I guess the camera here has opened
you are well soon.

So you think Grable stinks. Well
I guess you feel the same way about her.
As the boy feel about Frankie?

I read that part of the job boys in the barracks³
you should have what they do. On second
thought you are a lady. But this does
have to pass the guests. And now I will
get mad because you know me. Hebble
comes from. Well, it's my home town. St. Louis. Now
I want to see you on your business asking
forgiveness. Or I might get out the whip.

You are sure right about your letters
being vital to the war effort. Well, any
way to support. I really like to get them.
I guess the mail really be no way that
I can repay them. But I will start
the next time I get a chance.

So that man is going to give you a
bottle of wine. Well, if you say that it will
lay around the room. I just pass it over
here I sure would like a little now
a then. One of the boys in the barracks
went to France & got me wine. And he
said it was good.

Well, I was that all for now. I
will try to add some more & know.
So until then I will close with
lots of love
Ollie
