31 1944

Dear Martha,

I received a letter from you. But I was out to see London. I liked London but I know St. Louis is better.

I was very happy to hear from you. But I wish that I can write you a better letter on paper not on the v-mail.

I love my address change to the 35th Depot Supply Squadron.

I was very sorry to hear about the little babies. And about the one that died.

So you are back on night duty again. I remember the last time you had that. You were always late for work but I hope you did not mind. Because when I got you on a date. I did not want to let you go. With love to you Alice
