Jan. 7, 1945
England.

Dearest Martha,

I'm that I am way behind in writing
to you as I put so 2 of your letters. So I got a lot
of writing to do to get it back.

The sun is out & it's snowing a little. We
are getting cold weather now. And I guess winter
has come. I'm in the paper that is not a good
of home.

I should love a little now for you now.
I saw a very nice picture White Cliffs of Dover.
That picture I saw on my person day off which
was Thursday.

I have not went to a dance in a long time. I
wish I had a lot of practice. Could you be the
teacher.

I will enclose 3 pictures. I guess you have
seen them. But do not say it. You once said you
like informal pictures well the visit with the cake.
I have numbered them so you will get them straight.
As for Number No. 1 it was taken before I had
a chance to button up my jacket and my hair. So
you get the half. How do you like the hair
th. I think you would like it once you see it. I get it
all curled & ready for the pictures & then the wind
comes. All the time is gone for nothing. So I guess

2.

give by trying. I will you paste or glue the next
two. But I wish to put stuff on my hair.

The second picture was taken just a few minutes
after the first one. I am trying to explain to the
boy not to take it. As I wanted to comb my hair.
I am sure needs it. You can see he didn't wait to
long. I told that my foot that piece.

The third & last is the best out of the group we
had taken. The boy on the right works with
me & has the same bunk, as I am. I can not wear
his coat because the hair on my chest will not
leave me button it. He is a great guy & is fun
with. P.H. P.H. The other is Red Jones from St. L. He used
to work with us but is at that hotel now. You
can see I got the hair combed now. What do you
think about them now?

This letter of yours is very nice & I will
keep it for years to come. I am glad you got your
passage home for the New Year. I hope you had
a good time. But I know I will hear all about
it.

I read your letter in bed Thursday night before
I got to sleep. I like to read them at that time. As
then I got a lot of good ideas about you & me.
They are really good. But do not ask me about them

as the census would take far more.

I am looking forward to getting your letter about the party you want to in my house. You really made my mouth water talking about my mother's cooking. I could really go for it now.

Don't worry about writing to me. As you write more than any other girl I know. My Mother & Dad is the only ones that beat you. But then you can not blame them. So if you do not write much you still know it is O.K. Lynn. I still will be thinking of you a lot.

It is really growing now. If it keeps like this we can use the sleds soon. I hope it has become a little now.

I will remember what you said about passing me the first time you see me. I better get that too. And this letter is better saying this I read it I sure wish you could be here now. And I guess I will still love & desire more. So I will close for tonight.

May God bless you & keep you in good health & happy.

With love & love

Ag.
