My dearest,

It loaps like I write
to you just as much as I write
home. And then I have a lot
of your letters to answer. And
greatly like to write to you.

I guess the most important
news is that I go a 2 day
pass starting tomorrow. And
it will be good to get away
from camp for a while. Guess
I will not do any thing special.
But will take in a couple
of shows & a dance. I would
like to see something beautiful if
I could. I guess you will see
it.

Hope the weather is better
as it is raining here now.
The wind is really blowing

it as if just to give it through²
any thing. I had to sweep it
out a gain as it is coming through
the doors.

The biggest news flash:
The dance hall was on
fire. I didn't say much
about this dance hall. We
got one on the post. As for
this month they are bringing
quits for the circus around it
us to the dance. I was at the
one & it was pretty good.
But they do not have a good
floor. But then you can not
get every thing you like. And
this is war. ~~But~~ the friends
not ~~like~~ it to ~~bad~~. They
were going to make it
bigger any way. So they got

3.

to have now. One of the stores
got to but that is only the
first. Of course that is just
a common ~~entry~~ ^{now} he wrong.
As they were planting over there
of the same level.

I am liked the way you
started your letter with all
the wishes. I could take 10
pages to talk about them. But
we did that a lot. Let me
go over the slow a high just
the high points.

But furlough may come
true very fast. As I may get
another one over here. But
not near you. With nature
I had. Home is a few weeks
off. They may send us to school
much later and that will
be only after the defeat of

Germany. Which makes my
~~chance~~ chance of getting here
 soon very slight. In fact add
 a new year over here. as
 the Post talk about here.

For ten days we will
 hope we will get over
 soon. But that again you
 answer it just like before.
 That is unless you get ^{shipped} ~~sent~~
 over here. Which would
 not happen in a hundred
 years. Any way if the dispute
 you in the Service Co., I hope
 not, you could be a 2nd Lt.
 and be a back P.T. and if
 you do not know the rules
 I can tell you in a few better
 words. You can not go out
 with me. So I guess you know
 how I feel if you get in there

I could never get to see
you. Only in thank notes. But
back to the date. If you do
not have any state for the
I will get two states you
own me. But I think they
should have a little interest
add on then after a year. What
do you see about it?

That also goes for the
month too you wrote about.
Had ^{more} bright light nights some
good. In fact I could not
put it any other way and if we
do not have any moon so much
the better I will look better
in the dark.

I do not know about those
house back rides as you
know me a horse. But
I will game any thing a

try once.

You are right about
Christmas. I am sure in the
year yet you have not it
is Christmas. and I was that
way. It did not seem to
much like Christmas over
here. I guess it's because
weis our tree, and the singing
and the family but you know
what I mean.

That's a lot for the blotter
with the nice shape. I will
add it to my pretty quilts
got on the wall.

Do you mind if I ask you a
question. You are Cathie's
sister Dollie. Is work her
boy friend. If so what does seem
student mean? And does that
do any thing to do with his
job or an I just don't.

Thanks a lot for those cartoons
 they are about the same as I
 will send to my brother.
 I guess he will like them
 as I did.

I thought I could fill
 my this page, but it
 looks like I can not. So I
 guess I will have to close
 now.

I wish I had a good
 line to close with. But since
 I have not I will use the
 same. I know my thoughts
 are there.

always love for the bottom
 of my heart
