My Dearest -

I really have to get
on the ball as you are about
4 or 5 letters ahead of me.
I hope Dad & I can find time
to answer each one of them.
But it may take a while
before I do so.

I do not know if I told you
or not that I went to the
shop & saw "Counter buy" tele.
It is an English made picture.
They do have one Yankee in it.
But that is like the rest English
men in our pictures. It is broke
if funny. It was not so good.
I would call it just fair.

There is a picture in town I
would like to see. And that
is "Vigilant Victory" if I see it I
will let you know. As I do
not think you told me about

II

this one. You usually reason before
I do & then you get it all me
all about them. Thanks a lot.

We got much weather &
day one day it's more the next
day it's spring. Yesterday it
was raining, ^{we} with a breeze
lots of sunshine & no wind. I
hope it stays good.

I do not say much about the
war in my letters but the news
has been very good. In fact
I hope it's very good when you
read this letter.

I really like the way you
are starting a new letter. I
like to use them but it would
not be right if I had to copy
your things. I guess my brain
is not working good.

I am a little ~~unwilling~~ afraid
of a Test I want to take. I
want to get a better score

on it than I had. I took it 3
when I first came in the way.
and now I would like to
take it again. If I possess it
I will come far better and I
will write you if I do. It is
not so important that I would
like to do better than I did the
first time. Keep your fingers
crossed.

I am sure glad to get this letter
for one reason that is very important.
When I told you I was going out
with a girl over here. I thought
you would get mad. But this
letter of yours really explains things
good. And I am glad to see that
you are not mad. As I go out with
with her just to pass some of the
lonely hours. I wish that I could
reach her with you.
If we would of had an under-
standing before I left. Why?

would of been true and 4.
not go out with other girls. But
as we did not have Dad or did
not get to know each other that
well. I feel it is O.K. for you + myself
to go out with other people. I can
see no reason why you should not
love Dad. I told you I did but I
have not heard you did. are you?
Some times I wish I would of really
got to know you better. ~~and~~ I think
it is good we write to each other.
and that way you can find out about
me. But I have a lot of supporters
Dad does not come out in a letter.
My mother really wanted me
to get Dading back because she
did not think you would write me. but
if was just some thing that would
pass. Now Dad I told her you write
a lot. She has changed her mind
at least that now. I guess we
shouldn't her that she was wrong.
and she likes you a lot since you

then to the house.

I am glad you like my faithfulness. I was told from little one about lies. And I guess it will go on in life now. I told you that I like the truth when you write me. Well it would not be fair not to do the same to you. I remember that night at the back of the nursing home.

I am glad you understood. And if I had you now I could tell you just how things are. Of course I would not take long as I would be telling you.

So you like Mr. Adams' hamburgers. Well after the foot ball games. We would stop & eat them. They are really good.

Now you got my mouth watering. as I did not go to supper. but I will love to pretty soon. Because I am very hungry.

Have you talking about food and
about sundae & you said
that I should eat them myself.
Oh! how I wish I could!

I guess I better chop up I was
supper & I better not to that.
as I would die before breakfast.

I am really glad that you
understand about those
dates I had. But the Hay will
come when I can have them
with you dearest.

Really miss you &
hope that our meeting
is not so far away.

all my love
Hop.
