VIA AIR MAIL

Miss Martha Louise Dairrough
LUTHERAN Hospital
School of Nursing
St. Louis, Mo.

April 16, 1945

my dear & Marty,
Right now I
wish so much that I could be
with you & in your arms.
I guess that is because I saw
a picture. The picture was
not that good but it had
a couple good scenes in it.
When there was some good
scenes.

Well now back to earth.
I had 2 days off and I didn't
get a chance to write you. I
am getting so very far behind
in answering your little letters
that I should hang my head
in shame. I will try to answer
every letter in the next two
weeks even if I have to

with twice a day. I said
that I would hand over every
one of your letters & I will
try hard to keep to that.

I will tell you about the ship
in the next letter. But this one
I would like to write about
today.

First, I was tired from the
two days off. Like a dumb fool
I did not go to bed early and
therefore I am just as tired as
if I worked. But right now
I feel good. And it is almost
12 o'clock.

Next I put in a hard day.
I have to say that because of
the censor. He might be the
officer I work for. But all kidding
aside, I put in a good little
Victory as we call it.

3.
As you see I am in a good
mood.

I played all the catch in the
late afternoon. As the weather
is great over here. In fact it
is the best we had for a
while. It is like June at home.
But it stays light until late
about 4:20 I believe.

I wrote a long letter to my mother
& Dad and then went to school.
I was so tired in school that
I felt like a log. Even now
as I write in the class as I
was when I first started. I
guess I just can not get interested
in it. The weather is so good out
side. And I like to play ball.
Well after the school I went
to the show as every body said
we had a good show.

It was Bing Crosby & Betty Hutton.
is Here comes the Waves. It was
a picture I got the girls to join
the Waves. Why they showed
it is an awfully long one
my head. And Bing will never
join any thing with that of
course I could look at it right
all right. I'm like that. I'll
she got.

They played it to Frankie in the
picture as the girls went for
Bing like they do for Frankie. And
did that make the boys laugh.
If you saw it you would under-
stand and then I don't
see it you have to see that
part. And I better not say
any thing more, I will go to it
for you.

But there is a good thing in
it I like. Let's take it along

way home." That reminds me ⁵
of the night we had in the
park. I shall never forget that.
And you will have a couple
more of them if I had any
thing to say about it. And I
am sure you will.

I can not write much about
the room as we got a very
small one. It looks like a
barrack and a boat.

I have a letter here of Easter
morning. I have often letters
in the barracks that I should
answer first but as I do not
have them here I did not think
you would care if I answered
this one now.

Those meteorological papers
I sent for were to prove I
was in the Air Force. And not
a right. But it did not do much good.
So I am sent about in the same boat.

Mother & Dad will understand
about you not reaching any Easter
Card. As they are good & that
as I forget myself. They are sending
them to you as a way they have
of thanking you for writing me.

I tell them how you keep up
my morale with your letters.
And they write to let you
know a lot. As they like you a
lot.

I hope you & Pool are getting along
better now. The boys work with
now are really a well kept. And
I will hate to see Ben go home.

I don't like those long jobs. I
shall have to get out my tractor
& plow it under.

I will be looking forward
to that life magazine of August?
But I guess you know it will
be here by far from of July.
I hope it is a little faster.

I thought I would have 7.
enough news for just one 6
days. I'm in a good
buddhahood. or you write
a note in your letter
I think you will remember that
first date on the ship boat.
I'll remember that enough that
come with us? Well, my mother
know him pretty good. And
if you know my mother well she
will do anything I tell her
I did not hear from him in
a long time so she call his mother.
I found out he is now a 2nd Lt.
Heard he a P.T.C. But here is the
part that he is he was home
on a leave. Well, I guess every
body can not have it good. Do
you remember him? There was your
brother in Rome with me. Well
a line like that I better keep
quiet. I hope you do not mind
the writing.

I am glad you had a nice &
Eventful summer. As I was
bad boy and did not go to
school I could not tell you
about it. I should get a good
kicker on ~~out~~ how bad to
be a young man for church.

Well, I want, as all good
things must happen. If this was
good it would be a long time
ago.

I love you & miss you more
than this pen can write
on the world can make it
write.

all yours.
Hop
