Dearest Maudy,

I do not have much to write you, but I would like to tell you that I am still thinking of you a lot about you a lot. And I am sure I will stop for a long time. But I am sure I will see you soon.

We played a soft ball game today we did not make a goal. I was really got a bad team. He had a reputation and he was really bad. I hope I do not get in trouble for saying that and that is the truth and any body on the team will say so. We play the P.P. again. The game was so bad that I am not saying anything about it to you. We had to 'further' playing on the team so you see I had to be good. We played 2 B. & I played B.

I got your very nice Easter card and I really liked it. I like that when you had on the front. I got in a

I

while go but I told you can be kind
in answering your letter.

Weather got good weather and
hope it stays that way. as I got to
morrow off and I hope it doesn't
rain.

So many is your first much more.
Don't you think I thought you
told me once before you had
one but never mind it.
There was 3 castles in this letter. one
about me & the crop game. The ladies
under clothes coming out of a H. laundry.
And one about a sad & a slave standing
in an island. He had & counted the children
& told the years he was there. and then the
one about friends & in a tree. they are all
very good. Take a lot of the misnomer again.

If you ever go of the misnomer again
and told me & tell you to go back & ask
for him as he is always glad of the you.
He will let you in free & say the money for
a good fudge Sunday. But now that
seems to be here. They will be eating on the
outside of the stage door the last

3.

one on the other side of the Theatre. So
be sure I stop by if you like. Or if you
are any way going in the back of the
stage & order a row or two I would
add out & in you if you don't like to
go back. You go to the back on the right
side of the Theatre just before your
get to the boxes. Just tell them I send him
out & he will come if he knows you
are there & is waiting. They try it. He
said he would be glad if you had.

I am a picture of you that you
sent me in this letter. I really like it.
When I first saw it, it got me really
low sick and I wanted to go home
and I would of did any thing. I told
want to go home bad but I will keep
it from all the sweet things. I
just wanted to put my arms around
you & to hold you close to
me. then I know you are mine.
If I was as sure as you were it
would be all right. I am not that
sure. You are still the first

me & the only one I really care for
 but I am not that sure. I do believe
 that all this time has brought us to
 gether. And that we must like each
 other a very all the better if I did
 not mean that much I would not have
 given you a lot. And it would be the
 same if you leaving for me. For I
 would not write you a lot if you did
 not mean a lot. But I cannot, I guess
 the only way I am really sure is to see
 you & be with you. Until that
 day comes we will just love & stay
 like it is now. So as I go on pass to
 night & see I mean off. Will write
 you Sunday.
 I am sure of the Dearest
 as I know.

Love always.

A. G.
