AMERICAN RED CROSS

of the evening
of May 20 1945
in the country
of England

My Dearest One,

I have 5 days
off but since I can not leave
a 24 hours pass. I could not
stay in town last night. So
I had to come back to camp
last night. To day I then
slept last & went to breakfast
at 10:30 of course it was dinner
in camp but breakfast to me.
So for my breakfast I had chicken
not bad.

You see we have chicken
left about every Sunday but
since I have every Sunday
off I do not get it.
Then I come to town and I
got here at 2 o'clock and had
my dinner at 3 o'clock

2.

AMERICAN RED CROSS

It is now 10 o'clock and I
will have supper right
after I finish this letter
to you dear.

We had bad weather today.
As it rained a good part
of the afternoon. But it looks
like it will be a gain before
we go back & stay at Millbrook.
I hope it will be from the
practically "30 bands over Tokyo".
It is really a good picture. And
I can see your point about
Johnson. But I don't think it is
bad. They really looked like
they were in love. And
she really had a good
idea about the body. Really
liked the story. It was good.
And since you write me &
see it I shall it you

3.

AMERICAN RED CROSS

liked it.

On the way back to camp
I was talking to a layette
man in the hospital
here. He had a good story about
a nurse over here. It seems
that he was put about 5 feet
out of the hospital. And had
a walk home nurse come
out with. You see they told
her she had to stop going out.
You see she is going out with
a Sgt. and they told her she
could not. So he was pretty mad.
So what could he do, nothing.
So you see if you get in the service
what ever chance you would
have with a P. R. C. So you better
stay out for a while.

He also said some thing very
good one warm v. b. You
should be happy to know you.

AMERICAN RED CROSS

H.

He said that she was very nice.
You see if the boys could not
get to sleep she would not let
their beds & bath & that about
any thing they would like. But
most of the time they would
take about 1 hour in a girl. It
really helps a lot. For I guess
you know that it is hard to
get to sleep if he stays at
the place so long.

I do not have much else to
write you now. I am in town.
And there you do not have
any of your letters & answer.
But I will be back the next time
I write you. Which will be
very soon.

I am so sending this letter
to your house as I guess you

AMERICAN RED CROSS

5.

should be home by then. And
I will send the letter after the last
of your home. Until I hear
just what is all with them?

I think in the last letter I
wrote about some boy I was talking
about your home town. But I
for got to put his whole name
down. It is Jimmy R. R. R. R.

Well I guess I better close
now. I wish I had you here
to night as I am pretty lonely
and you really are a couple
of your good friends. But
I guess I will have to leave a
while longer.

Love always.

J. G.
