Tuesday.

Dear Martha,

I will send you Today that watch band. If it works on your watch OK. keep it. But if it does not send & take it to the house. As then mother & Dad can send it to Ray. As I am to get one for his Christmas present. Tell me if you keep it as then I can get another one. But you do not have to keep it if it does not work.

Well, pretty soon it will be Thanksgiving. And would I like to be home for that. Well, my chances of getting out by Christmas are very small. They are leaving out 55 point men on one 1. & 4 years service. Well, I got 50 points. So I guess I will be here for a while. I was pretty mad when I first got here and heard about it. I was mad enough to eat nails. I was really using some good words on this Army. But I used them so much that it's nothing new. I have to laugh at it now. But it still gets me mad when I think of it. Well, there is a lot of things I can say about it. But I guess I should drop it.

The weather down here is pretty warm like the Saturday I left. The leaves are still on the trees & still green. I guess I must not see much snow now. I really dislike that fall & cool weather we had at home.

I have not done any work since I been here. I got off yesterday afternoon and I had 8 day off. They got a lot of rookie & do the job. So I quit lay around. Boy if this was J.B. I would really be set. I am doing a little studying and that is hard & do. I am beging beginning & think that I will never make ~~an~~ it in school again.

I had a lot of letters when I got here. I heard that another boy friend of mine got out. And he never was over seas. Boy am I crying in this letter. I hope you do not mind. I am

I was hoping & hear from you by now. I guess I will be getting a letter soon.

I am having some trouble with this pen as I guess you can see by

II.
now. I just had this thing fixed and
still I am having trouble.

How are you & the boy friends at
home? Maybe I should not of asked
that. and therefore I don't care if you
answer that?

I had a pretty quiet trip down
here. It takes 25 hours. I sleep a lot
of the way. and then I could not sleep
down here. I wonder why.

I am having a hard time finding
things I write about. So I guess I
better close now.

Thanks a lot for the dates. I really
had nice time a lot better than I
date I had on my 30 days. Things have
changed a lot. That's why I want
to get back home.

I hope this letter finds
you in good health & happy.

Love as always

Hap
