Dearest,

I just received a letter from you telling me that your brother is coming home soon. So by all means stay there & see him. I can see the points in your letter very well. So stay there as long as you want.

Now don't get the idea that I do not want to see you but I don't see you very much. But you have not seen him in 3 years so see him. So you just have that family reunion.

I hope the hospital will give you a long enough extension and if they do you better have a good time. So write me all ~~the~~ about it. Last night Nick came over & we played cards all night with

Dad. But this time Nick did not
win all the game like he always
does. We could not get any beer
so we had other drinks.

I have not been doing any thing in
the line of work for a long time.
I am going down to the Headquarters
as soon as I finish this letter to you.
That is why this will be a short letter.
I will write to night if I
don't work.

Nick started working on U. Yester-
day. And he is in a class with all
veterans. And all his class are
in the afternoon. This is a course to
help him get ready for school.

I bet a close now done.

& Kisses always

Yours!
